Sonnon,2008-10-01 The founders of Russian sambo sifted through all of the world's martial arts including judo and jujitsu to get the most combat effective techniques available Each technique was carefully dissected and considered for its merits in achieving sambo's ultimate goal to stop an armed or unarmed adversary in the least time possible In this book author Scott Sonnon traces the development of the four types of sambo self defense sport wrestling combat sambo and Spetsnaz and then focuses on sambo's mixed martial arts applications Here he reveals the signature saddle techniques that have made him one of the most respected leg lock coaches in the world With 101 step by step moves including entries sweeps passes recounters and a host of submissions this series is a must for all MMA competitors searching for an edge over the competition Sambo prides itself on fast wrestling with only 60 seconds of groundfighting permitted In mixed martial arts however these locks only work 20 percent of the time and aren't worth sacrificing quality position As a result Sonnon modified traditional sambo to become a lower half positional approach so that fighters could both strike and defend against strikes maintain positional dominance and easily transition from one submission to the next in a chess like fashion as Brazilian Jujitsu has become known for in the upper half game Now you too can learn these winning strategies from one of the best sambo instructors in the world
