*Comme un roman* Daniel Pennac, 1992 Essai      **Literary Culture in a World Transformed** William Paulson, 2018-08-06 Literary studies are in danger of being left behind in the twenty first century Print culture risks becoming a thing of the past in the multimedia age meanwhile human life and society are undergoing rapid changes as a result of new technologies the intensification of global capitalism and the effects of human actions on the environment In this transformed world William Paulson argues for a radical renewal of literary studies Modern literary culture has defined itself in opposition to science politics and commerce as a protected sphere of democratic and free inquiry but today that autonomy may lead to isolation from the real dynamics of cultural and global change Paulson clearly and convincingly demonstrates the need for literary studies to embrace both the unfashionable literary past and the technologically saturated future and to train not a countersociety of cultural critics but citizens of the world who can communicate the irreducible strangeness and multiplicity of literature to a society on hyperdrive His series of concrete proposals ranging from a closer connection between literature and everyday language to the restructuring of undergraduate and graduate education will immeasurably enrich current discussions of the humanities role in the life of the world      [Social Justice in Library and Information Science](#) Bharat Mehra, Leili Seifi, Vanessa Irvin, 2025-11-17 Social Justice in Library and Information Science addresses an urgent need for more credible accurate authoritative authentic and current experiences about library and information science LIS research practices policies and services in the Islamic Republic of Iran      **Algorithmic Geometry** Jean-Daniel Boissonnat, Mariette Yvinec, 1998-03-05 The design and analysis of geometric algorithms have seen remarkable growth in recent years due to their application in for example computer vision graphics medical imaging and CAD The goals of this book are twofold first to provide a coherent and systematic treatment of the foundations secondly to present algorithmic solutions that are amenable to rigorous analysis and are efficient in practical situations When possible the algorithms are presented in their most general d dimensional setting Specific developments are given for the 2 or 3 dimensional cases when this results in significant improvements The presentation is confined to Euclidean affine geometry though the authors indicate whenever the treatment can be extended to curves and surfaces The prerequisites for using the book are few which will make it ideal for teaching advanced undergraduate or beginning graduate courses in computational geometry      **Popular Culture** Roger Clestin, Eliane Dalmolin, 1997      [Yale French Studies](#) , 1948      *French Fiction in the Mitterrand Years* Colin Davis, Elizabeth Fallaize, 2000 The authors examine some of the most popular and some of the most challenging of texts that emerged during Francois Mitterrand s presidency They relate these texts to the dominant literary and cultural trends of the period      **Pensée de Marivaux** , 2016-08-09 Envisager la pens e d un crivain que la tradition ne tient pas pour un penseur et dont les textes n pargnent pas la pr tention philosophique peut para tre paradoxal voire na f Mais ce serait oublier que la r flexion prend bien des chemins et que la litt rature est un espace de pens e Il faudrait par cons quent plut t s tonner du fait qu il

puisse sembler anormal d'interroger la pensée d'un crivain Mais le terrain est il est vrai min Mieux vaut repartir sur des bases modestes et claires d'après quelques constats Ainsi concernant Marivaux est il frappant de relever l'importance que tiennent les réflexions dans ses textes Rien de plus légitime dès lors que de se demander si ces pensées apparemment décousues n'entrent pas dans une conception ordonnée du réel et de l'humanité Il ne s'agit pas pour autant d'en revenir une position simpliste consistant attribuer chaque auteur une conception du monde partir d'un relevé de ses affirmations explicites ou implicites Plutôt que de se fourvoyer dans un exposé artificiellement complet de la pensée de Marivaux il paraît plus intéressant de faire quelques pas en direction de ce qui est pensé dans les textes de Marivaux

**A Century of French Best-sellers (1890-1990)** Christopher Todd, 1994 *The Invention of Literature* Florence Dupont, 1999 The invention of literature writes Florence Dupont is recent and its classical ancestry is not firm Rather than representing solely the remains of a network of readers and writers the odes epics tales and dramas of Greece and Rome had a much more diversified background and purpose Some works were intended to be read in groups other works were not meant to be read at all Resisting the traditional temptation to project current tastes and beliefs backward upon Greece and Rome The Invention of Literature presents classical writings in all their differences The labor of understanding a lyric or an epic as it was understood in its time requires a radical reconsideration of what reading is and what it means Translation Review, 1995

The Lion and the Unicorn, 1995 A critical journal of children's literature **TULS, the Times Literary Supplement**, 1995 **University of Toronto Quarterly** University of Toronto, 1995 Reads Like a Novel Daniel Pennac, 1994-01-01

*Michel Tournier's Children* Christopher Anderson, 1998 Best known in America for his 1970 novel *The Ogre* Le Roi des aulnes Michel Tournier is arguably France's most important living popular author Since 1980 however Tournier has focused on making his fiction accessible to children who now constitute his primary audience Dr Anderson focuses on the evolution of Tournier's writing style in terms of myth initiation and intertextual reference He breaks new ground by demonstrating that Tournier's later works introduce young readers to initiatic structures and a ludic approach to reading a key to the understanding of Tournier's adult works It shows too the crucial role that initiation and intertextual reference play in unifying all of Tournier's fiction *Children's Literature Abstracts*, 1995 *Contemporary Authors New Revision* Pamela Dear, 2000-07 In response to the escalating need for up to date information on writers Contemporary Authors New Revision Series brings researchers the most recent data on the world's most popular authors These exciting and unique author profiles are essential to your holdings because sketches are entirely revised and up to date and completely replace the original Contemporary Authors entries For your convenience a soft cover cumulative index is sent biannually While Gale strives to replicate print content some content may not be available due to rights restrictions Call your Sales Rep for details
