we are evaluated against our peers and what we use to solve problems when working in teams We also know that the most effective organizations work diligently to optimize these leadership behaviors Through stories of extraordinary courageous women Grace Meets Grit shows how to compensate for your innate style by dialing up leadership qualities you may not naturally possess Middleton empowers women in particular to embrace their innate qualities and anticipate and apply behaviors expected of their male counterparts to help level the playing field The end result is fewer misunderstandings in the workplace and higher performance from both individual leaders and teams
