A pair of pattern-recognition cards is used with each subject. The recognition conditions they meet through practice and training are described in parentheses. Subjects are given the pattern-recognition problem and corresponding instructions. Make a similar recognition for themselves. Problems that yield positive 1.000 responses with four patterns, they are considered a qualified subject.

The grid consists of 10 rows of pattern-recognition cards. Each row contains two cards separated by a vertical line. The cards show various wave patterns on a grid. A legend on the right side of the grid shows a box with '1.000' and a circular icon with a wave pattern.
