Impact Of E Learning In Education:

Trends and Issues in Distance Education Lya Visser, Yusra Laila Visser, Ray Amirault, Michael Simonson, 2012-05-15 This book captures global trends and issues in distance education through 21 chapters by over 30 international authors. It addresses conceptual and practical aspects reflecting on diverse initiatives and technologies from advanced 3D computing to wind up radios for researchers, practitioners, and students.

International Handbook of E-Learning Volume 1 Badrul H. Khan, Mohamed Ally, 2015-02-20 The International Handbook of e Learning Volume 1 provides a comprehensive compendium of research and theory in all aspects of e learning, one of the most significant ongoing global developments in the entire field of education. Covering history, design models, instructional strategies, best practices, competencies, evaluation, assessment, and more, these twenty-seven contributions tackle the tremendous potential and flexibility inherent to this rapidly growing new paradigm. Past and present empirical research frames each chapter, while future research needs are discussed in relation to both confirmed practice and recent changes in the field. The book will be of interest to anyone seeking to create and sustain meaningful, supportive learning environments within today's anytime, anywhere framework, from teachers, administrators, and policy makers to corporate and government trainers.

Applied E-Learning and E-Teaching in Higher Education Donnelly, Roisin, McSweeney, Fiona, 2008-07-31 This book presents international practices in the development and use of applied e Learning and e Teaching in the classroom in order to enhance student experience, add value to teaching practices, and illuminate best practices in the area of e Assessment. This book provides insight into e Learning and e Teaching practices while exploring the roles of academic staff in adoption and application. Provided by publisher.

Handbook of Research on E-Learning Applications for Career and Technical Education: Technologies for Vocational Training Wang, Victor X., 2009-05-31 Provides an authoritative reference collection on leading international insights into the integration of technology tools and applications with adult and vocational instruction.

E-Learning in the 21st Century D. Randy Garrison, 2003-08-29 There is currently a technological revolution taking place in higher education. The growth of e learning is being described as explosive, unprecedented, and above all, disruptive. This timely and comprehensive book provides a coherent framework for understanding e learning in higher education. The authors draw on their extensive research in the area to explore the technological, pedagogical, and organisational implications of e learning, and more importantly, they provide practical models for educators to use to realise the full potential of e learning. A unique feature of the book is that the authors focus less on the ever-evolving technologies and more on the search for an understanding of these technologies from an educational perspective. This book will be invaluable for researchers, practitioners, and senior administrators looking for guidance on how to successfully adopt e learning in their institutions. It will also appeal to anyone with an interest in the impact of e learning on higher education and society.
