Inner Recesses Outer Spaces:

Inner Recesses, Outer Spaces Kamaladevi Chattopadhyaya, 1986 **Performing the Self** Katie Barclay, Sarah Richardson, 2016-04-14 That the self is performed created through action rather than having a prior existence has been an important methodological intervention in our understanding of human experience It has been particularly significant for studies of gender helping to destabilise models of selfhood where women were usually defined in opposition to a male norm In this multidisciplinary collection scholars apply this approach to a wide array of historical sources from literature to art to letters to museum exhibitions which survive from the medieval to modern periods In doing so they explore the extent that using a model of performativity can open up our understanding of women s lives and sense of self in the past They highlight the way that this method provides a significant critique of power relationships within society that offers greater agency to women as historical actors and offers a challenge to traditional readings of women s place in society An innovative and wide ranging compilation this book provides a template for those wishing to apply performativity to women s lives in historical context This book was originally published as a special issue of *Women s History Review*

Founding Mothers of the Indian Republic Achyut Chetan, 2023-01-05 The book begins with the momentous task of demolishing the prejudices attached with the phrase founding fathers that has held an immense sway over constitutional interpretation It shows that women members of the Indian Constituent Assembly had painstakingly co authored a Constitution that embodied a moral imagination developed by years of feminist politics It traces the genealogies of several constitutional provisions to argue that without the interventions of these women framers the Constitution would hardly have a much poorer document of rights and statecraft that it is Situating these interventions in the larger trajectory of Indian feminism in which they are rooted in the nationalist discourse with which they perpetually negotiated and in the larger human rights discourse of the 1940s the book shows that the women members of the Indian Constituent Assembly were much more than the founding mothers of a republic

Blood Into Ink Miriam Cooke, 2018-10-08 The experiences of women in twentieth century wars in South Asia and the Middle East challenge the concept of the separation of front and homefront and of family and society common to most modern western wars Women there have not only entered into what was once considered male only territory in men s roles wearing men s clothing but more important they have entered explicitly as women playing a variety of roles in the conflicts surrounding them Their self conscious self confident presence has changed the nature of that territory This anthology reflects the realization that through their writing women have created a new mythology of the war peace paradox one that is grounded in the reality of their own lives The works collected here illustrate the many ways in which women have become active participants in social conflict and military battles speaking of war not only as an extraordinary but also as an ordinary experience of coping with violence and conflict on a daily basis Women s involvement with the rituals of violence does not begin or end with traditional war their daily struggles for survival stretch seamlessly into the more public arena of political
