## **Peter Kreeft Socratic Logic:**

Socratic Logic Peter Kreeft, 2008 Symbolic logic may be superior to classical Aristotelian logic for the sciences but not for the humanities This text is designed for do it yourselfers as well as classrooms

**Socratic Logic** Peter Kreeft, 2005 This new revised edition of Peter Kreeft's Socratic Logic is updated adding new exercises and online access to answers to odd numbered exercises Since its introduction in the spring of 2004 Socratic Logic has proven to be a different type of logic text

- 1 This is the only complete system of classical Aristotelian logic in print The old logic is still the natural logic of the four language arts reading writing speaking and listening Symbolic or mathematical logic may be superior to classical ordinary language Aristotelian logic for the sciences but not for the humanities and is more sophisticated theoretically but not more useful practically How often have you heard non philosophers argue in symbolic logic
- 2 This book is simple and user friendly It is highly interactive with a plethora of exercises and a light engaging style Most beginners need a back to basics logic text rather than the latest overpriced one with state of the art bells and whistles that they will never use outside class
- 3 It is practical It is designed for do it yourselfers as well as classrooms It emphasizes topics in proportion to probable student use e g interpreting ordinary language not only analyzing but also constructing effective arguments smoking out hidden assumptions making argument maps and using Socratic method in various circumstances It is divided into eighty eight mini chapters for maximum mix and match flexibility
- 4 It is also philosophical Its exercises expose students to many classical quotations and additional chapters introduce philosophical issues in a Socratic manner and from a common sense realistic point of view It prepares students for reading Great Books rather than Dick and Jane and models Socrates as the beginner's ideal teacher and philosopher

**The Layman's Manual on Christian Apologetics** Brian G. Chilton, 2019-11-14 Modern Christians have been bombarded by objections launched against the Christian faith from popular secular authors bloggers and stars from the entertainment industry The church is quickly beginning to acknowledge the need for apologetics due to the number of youth and adults alike leaving the faith But how does one respond to these objections For the laity of the church this is especially difficult as many are left without the proper training to know how to answer these objections In The Layman's Manual on Christian Apologetics the essentials of apologetics are taken from the ivory towers of academia and are made available to those who have not obtained seminary training or for those thinking about attending seminary In this book three major areas of apologetics are covered The first unit engages the nature of truth and what can be known The second unit deals with the existence of God and issues involving God's existence The last unit tackles historical objections to the resurrection of Jesus and early Christianity The Layman's Manual on Christian Apologetics delivers heavy apologetic issues with the laity in mind and blends in personal illustrations to make the material applicable

**God** Francisco Suárez,2004 In the course of his argument Suarez rejects any physical demonstration which would employ the Aristotelian principle Everything which is moved is moved by another in order to pass from motion to a First Mover Other topics that he treats include in Disputation 28 the analogy of being between God and creatures and in Disputation 29 the fact that there is only one God who is the creator of all else BOOK JACKET A Theater of Envy René Girard,2004 One of the foremost literary critics turns to the major figure in English literature and proposes a dramatic new reading of nearly all his plays and poems involving a novel interpretation of mimesis For Girard people desire objects not for their intrinsic value but because they are desired by someone else we mime or imitate their desires Thus envy or mimetic desire drives the human condition Introduction to the Summa Theologiae of Thomas Aquinas John of St. Thomas,2004 John of St Thomas John Poincot lived from 1584 to 1644 and was one of the luminaries of the Second Scholasticism which flourished on the Iberian Peninsula at a time when on the continent Thomism was virtually eclipsed In his *Cursus Philosophicus* John of St Thomas provides a remarkable precis of the philosophy that is presupposed by theology His *Cursus Theologicus* is a commentary on the *Summa Theologiae* in the manner of the Master s exposition of the Sentences of Peter Lombard that is the pursuit of the main questions raised by the text rather than a textual commentary Included in modern editions of the *Cursus Theologicus* are a number of preliminary studies among them a remarkable analysis of the *Summa* part by part treatise by treatise in which the exquisite architecture of this masterpiece of Thomas Aquinas is magisterially displayed This may be read as the *explicatio textus* essential for reading the *Cursus Theologicus* Readers of Jacques and Raissa Maritain are aware of the central role John of St Thomas played in their grasp of Aquinas Indeed this was true of most of those involved in the Thomistic Revival inaugurated by Leo XIII This translation of John of St Thomas s Introduction as it appears in the Solesmes edition makes available to a new generation of students of Thomas a precious handbook and guide to the *Summa*

**Socratic Logic** Peter Kreeft,2009-01-01 If Einstein Had Been a Surfer Peter Kreeft,2009 Science philosophy and poetry myth and mysticism are three modes of consciousness that are radically different today Almost no one tries to connect them in a synthesis in which each maintains its own identity yet each contributes to a greater whole that no one of them could attain alone This book dares to try and find a Theory of Everything From back cover *Socrates in the Underworld* Nalin Ranasinghe,2009 menaced by the silent violence of technology and the imperial tones of a false voluntaristic god a deity who never seeks to persuade but kills those he cannot frighten Today it is increasingly clear that Athens and Jerusalem must combine forces and march to the relief of civilization from the joint assault of these barbarisms old and new It is only fitting then that the West should return to its Socratic origins at this crucial kairos Book Jacket **Augustinian Cartesian Index** Zbigniew Janowski,2004 **International Philosophical Quarterly** ,1961
