

Computing Discounts Activity

Context

When purchasing items, it is often hard to determine the best deal. One way to help is to use the following table to compare different deals. The table shows the original price, the discount percentage, and the resulting price. It also shows the amount of money saved and the percentage of the original price that is saved.

Example: Original Price = \$100, Discount = 20%, Resulting Price = \$80, Money Saved = \$20, Percentage Saved = 20%

Original Price = \$100, Discount = 30%, Resulting Price = \$70, Money Saved = \$30, Percentage Saved = 30%

Original Price = \$100, Discount = 40%, Resulting Price = \$60, Money Saved = \$40, Percentage Saved = 40%

Original Price = \$100, Discount = 50%, Resulting Price = \$50, Money Saved = \$50, Percentage Saved = 50%

Original Price = \$100, Discount = 60%, Resulting Price = \$40, Money Saved = \$60, Percentage Saved = 60%

Table 1: Comparison of Deals

Item	Original Price	Discount	Resulting Price
Apple	\$100	20%	\$80
Banana	\$100	30%	\$70
Carrot	\$100	40%	\$60
Dragonfruit	\$100	50%	\$50
Eggplant	\$100	60%	\$40
Fruit Basket	\$100	70%	\$30

Table 2: Comparison of Deals

As the discounts increase, the resulting price decreases. This means that the more money you save, the less you pay. The table shows that the resulting price is always less than the original price.

1. The resulting price is always less than the original price. This means that the more money you save, the less you pay.
2. The resulting price is always less than the original price. This means that the more money you save, the less you pay.
3. The resulting price is always less than the original price. This means that the more money you save, the less you pay.
4. The resulting price is always less than the original price. This means that the more money you save, the less you pay.
5. The resulting price is always less than the original price. This means that the more money you save, the less you pay.
6. The resulting price is always less than the original price. This means that the more money you save, the less you pay.
