Five Dialogues Plato, 2019-08-10 Plato's Five Dialogues Euthyphro Apology Crito Meno Phaedo Complete unabridged Translated in English By Benjamin Jowett The Apology of Socrates Greek Apologia Sokratous Latin Apologia Socratis by Plato is the Socratic dialogue that presents the speech of legal self defence which Socrates presented at his trial for impiety and corruption in 399 BC Euthyphro Euthyphro ju fro Ancient Greek romanized Euthyphron c 399-395 BC by Plato is a Socratic dialogue whose events occur in the weeks before the trial of Socrates 399 BC between Socrates and Euthyphro The dialogue covers subjects such as the meaning of piety and justice Apology Specifically the Apology of Socrates is a defence against the charges of corrupting the youth and not believing in the gods in whom the city believes but in other daimonia that are novel to Athens 24b Among the primary sources about the trial and death of the philosopher Socrates 469-399 BC the Apology of Socrates is the dialogue that depicts the trial and is one of four Socratic dialogues along with Euthyphro Phaedo and Crito

through which Plato details the final days of the philosopher Socrates. *Crito* is a dialogue by the ancient Greek philosopher Plato. It depicts a conversation between Socrates and his wealthy friend Crito regarding justice, injustice, and the appropriate response to injustice. Socrates thinks that injustice may not be answered with injustice and refuses Crito's offer to finance his escape from prison. The dialogue contains an ancient statement of the social contract theory of government.

Meno is a Socratic dialogue scripted by Plato. It appears to attempt to determine the definition of virtue or arete (meaning virtue in general rather than particular virtues such as justice or temperance). The first part of the work is written in the Socratic dialectical style and Meno is reduced to confusion or *aporia*.

Phaedo is one of the best known dialogues of Plato's middle period, along with the *Republic* and the *Symposium*. The philosophical subject of the dialogue is the immortality of the soul. It is set in the last hours prior to the death of Socrates and is Plato's fourth and last dialogue to detail the philosopher's final days following *Euthyphro*, *Apology*, and *Crito*.

Plato: Five Dialogues: Euthyphro, Apology, Crito, Meno, Phaedo by Plato, Benjamin Jowett, 2017-10-12.

Plato was a philosopher in Classical Greece and the founder of the Academy in Athens, the first institution of higher learning in the Western world. He is widely considered the most pivotal figure in the development of philosophy, especially the Western tradition. Unlike nearly all of his philosophical contemporaries, Plato's entire work is believed to have survived intact for over 2,400 years. Others believe that the oldest extant manuscript dates to around AD 895, 1100 years after Plato's death. This makes it difficult to know exactly what Plato wrote. Along with his teacher Socrates and his most famous student Aristotle, Plato laid the very foundations of Western philosophy and science. Alfred North Whitehead once noted the safest general characterization of the European philosophical tradition is that it consists of a series of footnotes to Plato. In addition to being a foundational figure for Western science, philosophy, and mathematics, Plato has also often been cited as one of the founders of Western religion and spirituality. Plato's influence on Christianity is often thought to be mediated by his major influence on Saint Augustine of Hippo, one of the most important philosophers and theologians in the foundation of the Western thought. In the 19th century, the philosopher Nietzsche called Christianity "Platonism for the people." Numenius of Apamea viewed this differently; he called Plato the Hellenic Moses. This would justify the superiority of Christianity over Hellenism because Moses predates Plato, thus the original source of this wisdom is the root of Christianity and not Hellenistic culture.

Plato was the innovator of the written dialogue and dialectic forms in philosophy. Plato appears to have been the founder of Western political philosophy with his *Republic* and *Laws*, among other dialogues, providing some of the earliest extant treatments of political questions from a philosophical perspective. Plato's own most decisive philosophical influences are usually thought to have been Socrates, Parmenides, Heraclitus, and Pythagoras, although few of his predecessors' works remain extant, and much of what we know about these figures today derives from Plato himself.
