

PEST Analysis of Retail Industry

Political

- The government makes policies and regulations that businesses should comply with to survive in the market.
- Political stability in a country is one of the key factors that favor the growth of an industry.

Economic

- The nation's economy immensely affects the business of the retail industry. Economic rise, inflation, recession, and unemployment are some factors that can toll the buying capacity of people.

Social

- The countries with a higher per capita income have more customers buying branded items instead of looking for the prices. While the areas with people of middle and low income groups.

Technological

- The retail brands use technologically advanced software and hardware to offer customers a user-friendly shopping spree. Besides that, the brands provide data security and a safe payment gateway.

Environmental

- The retail brands selling food and items with a limited shelf-life must manufacture or stock the items considering their expiry date. They should arrange the products according to their batch number and expiry date to prevent wastage. Many big retailers like Walmart are seeking to use blockchain technology.

Legal

- Retail businesses must understand the taxation rules, tariff plans, and more when a retail brand starts its business.

Handbook of Research on Decision-Making Techniques in Financial Marketing Dinçer, Hasan, Yüksel, Serhat, 2019-12-27
Consumer needs and demands are constantly changing. Because of this, marketing science and finance have their own concepts and theoretical backgrounds for evaluating consumer-related challenges. However, examining the function of finance with a marketing discipline can help to better understand internal management processes and compete in today's market. The Handbook of Research on Decision Making Techniques in Financial Marketing is a collection of innovative research that integrates financial and marketing functions to make better sense of the workplace environment and business-related challenges. Different financial challenges are taken into consideration while many of them are based on marketing theories such as agency theory, product life cycle, and optimal consumer experience. While highlighting topics including behavioral financing, corporate ethics, and Islamic banking, this book is ideally designed for financiers, marketers, financial analysts, marketing strategists, researchers, policymakers, government officials, academicians, students, and industry professionals.

Analysing the Organisational Environment, The aim of this title is to examine the nature of organisational culture and structure and their influence on the ability of the organisation to cope to this rapidly changing environment. **Theory and Practice of Leadership** Roger Gill, 2011-12-15 Praise for the first edition: At last, a well-written, balanced, and insightful British book on leadership. It is probable that every theory and assertion of consequence is commented upon. A real tour de force. Emeritus Professor Gerry Randell, University of Bradford School of Management. Theory and Practice of Leadership is an all-encompassing global review of examples and case studies that is both comprehensive and easily adaptable to almost any situation one would encounter in leading people. Richard J. Conwell, Nova Southeastern University. Journal of Applied Management and Entrepreneurship. If you are looking for a more holistic and critical take on the field of leadership, look no further. The second edition of this engaging and highly respected text offers an exploration of leadership in a variety of contexts, both profit-oriented and non-profit. New to this edition: Refined to capture and delineate the essential theories more clearly with broader coverage, taking in the latest developments in areas such as change, politics, assessment, and development of leadership and multiple intelligences. Further development of a new integrative model of core leadership themes and practices. Abundant examples and illustrations together with detailed explanations of how they apply in practice. A companion website with an Instructor's Manual, PowerPoint slides, links to additional case studies, and full-text journal articles. Theory and Practice of Leadership will prove a highly stimulating read for undergraduate and postgraduate students of leadership and related subjects, as well as management consultants and practising managers. **Rethinking Decision-Making Strategies and Tools** Maria Palazzo, Alessandra Micozzi, 2024-02-16 Readers will be enabled to compare, contrast, and comprehend how the decision-making strategies and tools from different lenses are delivered in different parts of the world. The text includes an interesting mix of theory, primary research findings, and practice that will appeal to students.

Development of a Business Model Approach Fabian Hoefft,2019-10-24 Master s Thesis from the year 2019 in the subject Business economics Business Management Corporate Governance grade 1 3 Niederrhein University of Applied Sciences Krefeld School of Business and Economics language English abstract Today s world of mobility is characterised by a high degree of dynamism and change is becoming apparent Currently around 45 million passenger cars with conventional combustion engines powered by diesel or petrol are registered in Germany The share of electric vehicles is still well below one per cent Nevertheless the voices for sustainable and environmentally friendly transport are becoming louder One political measure in this respect is the implementation of driving bans in major German cities for some conventional combustion cars Car electrification is a solution for converting cars with conventional combustion engines to electric drives In the context of this thesis car electrification is regarded as a transition solution towards a nationwide electrified transport network of new electric cars A comprehensive concept of a business model approach from a start up perspective has been developed based on the analysis of the environment industry and customer needs Analysing the structure of the electrical conversion industry revealed that the subject of car electrification is hardly widespread and that current suppliers have only converted a smaller number of cars Besides the small scale of implementation the operational execution by existing suppliers can be considered weak in terms of competitiveness and sustainability The analysis of the needs of potential customers of car electrification using qualitative and quantitative methods has led to incredibly valuable insights for the development of the business model approach A high openness to purchase was expressed considering some of the factors mentioned such as a

test drive with an electrified car before purchase and a durability guarantee of the conversion The high relevance of initial acquisition costs compared to operating expenses in the purchase decision for passenger cars is another precious insight The business model approach developed based on the findings obtained differs fundamentally from the strategies of today s providers By incorporating the existing infrastructure of workshops and service points proximity to the end customer and scalability of the business operation can be achieved Partnering with universities and industry are two critical elements in the development of a sustainable secure and user friendly technical solution
