Introduction to Conflict Resolution Sara Cobb,Sarah Federman,Alison Castel,2019-07-02 The field of conflict resolution has evolved dramatically during the relatively short duration of the discipline s existence Each generation of scholars has struggled with the major puzzles of their era providing theories and solutions that meet the needs of the time only to be pushed forward by new insights and at times totally upended by a changing world This introductory course text explores the genealogy of the field of conflict resolution by examining three different epochs of the field each one tied to the historical context and events of the day In each of these epochs scholars and practitioners worked to understand and address the conflicts that the world was facing at that time This book provides a framework that students will carry with them far into their careers enriching their contributions and strengthening their voices Rather than a didactic approach to the field students will develop their critical analytical skills through an inductive inquiry Students will broaden their vocabulary grapple with argumentation and develop critical reading skills Workshop on Environmental Conflict Management ,1980 Conflict Resolution S. Sea tenure in Japanese coastal fisheries is a complex subject that is little known in the West It involves time honoured customary procedures for management and conflict resolution which may have been incorporated into modern legislation The Introduction reviews selected aspects of the general behavioural context within which the administration of Japanese fisheries and the resolution of conflicts should be viewed Since the degree of continuity with traditional management practises is an outstanding characteristic Chapter 1 describes and provides examples of the historical antecedents of the present situation Present day formal administration is described in Chapter 2 Systems of coastal sea tenure reflect an intimate interplay of formal government regulations and informal customary elements The latter are commonly of greater day to day importance than the former In Chapters 3 and 4 this is examined through the problems of conflict management and resolution proceeding from the personal and small scale level to the impersonal prefectural and national levels
