**The Sage Handbook of Political Marketing** Paul Baines, Phil Harris, Denisa Hejlova, Costas Panagopoulos, 2025-08-07

The Sage Handbook of Political Marketing is a comprehensive resource that introduces the theory and practice of political marketing in a global yet simultaneously localized world. The practice of political marketing has evolved significantly during the 20th and 21st centuries, adapting to the rise of mass media, marketing, communication, advertising, and the web. Traditionally dominated by US, European, and Australasian scholars, the field has up to now emphasized the Americanisation and professionalisation of campaigning styles. Since the start of the new millennium, however, political marketing has transformed into a data-driven, specialized profession. With increasing digitalisation and the advent of AI, political marketing involves personally targeted, evidence-based messaging with real-time engagement and sentiment analysis. This approach is not limited to democratic regimes but is also widely adopted by authoritarian states worldwide. The handbook addresses the global perspectives on political marketing, covering a myriad of contexts, cultures, and regimes. It encompasses insights into political marketing in regions seldom discussed in the literature, including Zimbabwe, Japan, India, Hong Kong, and Ukraine. These chapters enrich the debate on political marketing's impact on democracies and its use in non-democratic societies. Organized into four parts, the handbook covers strategy, propaganda, digital evolution, ideology, and contemporary practices in political marketing. It explores topics such as the marketing of ideology, the impact of the internet and social media, the use of AI in political marketing, and the role of fake news and disinformation in campaigns. The handbook addresses the use of political marketing techniques in crisis management, political branding, the measurement of political marketing effects, and political marketing use outside of electoral campaigns. The Sage Handbook of Political Marketing is an essential resource for scholars, practitioners, students, and politicians in general seeking to understand the complexities of political marketing. It provides a comprehensive and nuanced exploration of the field, equipping readers to engage with the theoretical and practical aspects of political marketing in a rapidly changing world.

**Campaigning in the Twenty-First Century** Dennis W. Johnson, 2011-01-31 So much has changed during the past decade in political campaigning that we can almost say it's a whole new ball game. This book analyzes the way campaigns were traditionally run and the extraordinary changes that have occurred in the last decade. Dennis W. Johnson looks at the most sophisticated techniques of modern campaigning: micro-targeting, online fundraising, digital communication, the new media, and examines what has changed, how those changes have dramatically transformed campaigning, and what has remained fundamentally the same despite new technologies and communications. Campaigns are becoming more open and free-wheeling with greater involvement of activists and average voters alike. But they can also become more chaotic and difficult to control. Campaigning in the Twenty-First Century presents daunting challenges for candidates and professional consultants as they try to get their messages out to voters. Ironically, the more open and robust campaigns become, the greater is the need for seasoned, flexible, and imaginative professional consultants.

**We Change Europe!** Johannes W. Pichler, 2008 In the wake of the ratification of the Constitution of Lisbon, the European Union must now also contend with the central question of a living democracy. Whereas during the French Revolution there was extensive bloodshed, today a new civilized culture of citizen participation has emerged: the European Citizens Initiative. The initiative allows Europeans the formidable opportunity to actively participate in the shaping of their Union, to get involved, and to be heard. This book is not merely a plea for a European Citizens participation movement; instead, by offering practical suggestions, it serves as a tangible guide for anyone planning a European-wide initiative. The book is completed by concrete recommendations to the European Union for promoting and monitoring a trans-European initiative. The book also pays special attention to the use of new media in the citizen participation process.
