Head First Java 4th Edition:

Head First Java Kathy Sierra, Bert Bates, 2005-02-09 Learning a complex new language is no easy task especially when it is an object oriented computer programming language like Java You might think the problem is your brain It seems to have a mind of its own a mind that doesn't always want to take in the dry technical stuff you're forced to study The fact is your brain craves novelty It's constantly searching scanning waiting for something unusual to happen After all that's the way it was built to help you stay alive It takes all the routine ordinary dull stuff and filters it to the background so it won't interfere with your brain's real work recording things that matter How does your brain know what matters It's like the creators of the Head First approach say suppose you're out for a hike and a tiger jumps in front of you what happens in your brain Neurons fire Emotions crank up Chemicals surge That's how your brain knows And that's how your brain will learn Java Head First Java combines puzzles strong visuals mysteries and soul searching interviews with famous Java objects to engage you in many different ways It's fast it's fun and it's effective And despite its playful appearance Head First Java is serious stuff a complete introduction to object oriented programming and Java You'll learn everything from the fundamentals to advanced topics including threads network sockets and distributed programming with RMI And the new second edition focuses on Java 5.0 the latest version of the Java language and development platform Because Java 5.0 is a major update to the platform with deep code level changes even more careful study and implementation is required So learning the Head First way is more important than ever If you've read a Head First book you know what to expect a visually rich format designed for the way your brain works If you haven't you're in for a treat You'll see why people say it's unlike any other Java book you've ever read By exploiting how your brain works Head First Java compresses the time it takes to learn and retain complex information Its unique approach not only shows you what you need to know about Java syntax it teaches you to think like a Java programmer If you want to be bored buy some other book But if you want to understand Java this book's for you

Head First Java Kathy Sierra, Bert Bates, 2003 Head First Java engages readers on many levels bringing the latest learning theories and research together to create not just a book to read but a multi sensory learning experience

Java Enterprise in a Nutshell Jim Farley, William Crawford, 2006 With the recent release of Java 2 Enterprise Edition 1.4 developers are being called on to add even greater more complex levels of interconnectivity to their applications To do this Java developers need a clear understanding of how to apply the new APIs and the capabilities and pitfalls in the program which they can discover in this edition

Programming Jakarta Struts Chuck Cavaness, 2004 A bestselling book on a popular technology this revision of Programming Jakarta Struts keeps it up to date ensuring strong sales into the future

JUnit Pocket Guide Kent Beck, 2004 JUnit created by Kent Beck and Erich Gamma is an open source framework for test driven development in any

Java based code JUnit automates unit testing and reduces the effort required to frequently test code while developing it While there are lots of bits of documentation all over the place there isn't a go to manual that serves as a quick reference for JUnit This Pocket Guide meets the need bringing together all the bits of hard to remember information syntax and rules for working with JUnit as well as delivering the insight and sage advice that can only come from a technology's creator Any programmer who has written or is writing Java Code will find this book valuable Specifically it will appeal to programmers and developers of any level that use JUnit to do their unit testing in test driven development under agile methodologies such as Extreme Programming XP another Beck creation

Java Cookbook Ian F Darwin, 2004-06-14 Covers all of the major APIs from Java 1.4 and 1.5 Covers many specialized APIs including those for working with Struts Ant and other Open Source tools

JavaServer Faces Hans Bergsten, 2004-04-22 With this text developers will learn to use the new JavaServer Faces framework to build real world web applications It covers topics such as the JSF environment validating input controlling page navigation working with tabular data and developing custom renders and custom components

JavaServer Pages Hans Bergsten, 2004 This revised and updated edition of this practical guide is for both Web developers who want to make the most of Java Server Pages JSP potential for building dynamic Web applications and programmers who want to master the JSP API and use JSP effectively in a distributed enterprise application

Book Review Index Cumulation Dana Ferguson, 2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year
