Kathleen T. McWhorter, 2002 *Guide to College Reading* focuses on the key areas of reading comprehension vocabulary improvement and textbook reading. Critical thinking and metacognition are hallmarks of the McWhorter series. Critical thinking is incorporated throughout the book in instruction exercises and readings. Metacognitive activities include teaching readers how to evaluate their own learning styles to increase their ability to read college level material successfully. Exercises that ask readers to respond by writing sentences and paragraphs after reading help make the critical connection between these two activities. Numerous diagrams and drawings help readers visualize how reading material can be organized. High interest photographs and artwork appeal to the visual learner. Chapter ending readings give immediate practice for chapter skills and aid in transferring these skills to actual reading situations. Learning Style Tips reinforce material introduced earlier throughout the book and teach readers how to apply knowledge of their individual learning styles to learn new skills. For those interested in developing their reading skills at the 6th-9th grade level *Selections from Communication Teacher*, (2004, Printed) to accompany *the Art of Public Speaking* Jr. Lucas, Jr., 2003-06 **Forthcoming Books** Rose Arny, 2002 **Books in Print Supplement**, 2002 *Communicating in Small Groups* Steven A. Beebe, 2015 [Communicating for Success](#) Cheryl M. Hamilton, 2016-07-22 This text focuses student learning on the key communication competencies recommended by the National Communication Association. With applied examples and a vibrant and engaging design, this text covers all the expected topics in an introductory course: foundations of communication, interpersonal communication, small group communication, and public speaking, plus a special appendix on interviewing. Scenarios begin each chapter with a problem to which students can relate and then solve as they learn about the concepts discussed in each chapter. A concentrated focus on careers in communication highlighted in a two-page spread near the end of each chapter brings home the relevance of communication outside the classroom and helps students learn more about how studying communication can help them throughout their lives. Additional emphasis on topics such as ethics, culture, gender, and technology is found throughout the text. **Group Discussion** Kathryn Sue Young, 2001 **Groups in Process** Larry Lee Barker, Kathy J. Wahlers, Kittie W. Watson, 2001 Practical and concise, this book offers specific techniques to make small group interactions more effective and efficient. *Groups in Process* continues to balance traditional and progressive approaches to teaching small group communication, drawing together the best of current research and thought on leadership, problem solving, and conflict management. Thorough and up to date, this book serves as a bridge between discussion-based texts and newer interpersonal perspectives. Its straightforward presentation translates theory into practice with a plenitude of real world examples.
