C A Practical Introduction:

A Practical Introduction to Real-World Research Loreen Wolfer,2021-01-15 This practical text combines social research methods with coverage of statistical analysis to help students develop the applied research skills needed for future careers in public and private organizations while also delivering a solid foundation for those going on to graduate school Throughout the book the author offers a real world example and then breaks it down into a decision tree which helps lead students to a possible statistical decision rather than starting with the statistic This text gives students a toolbox of the most common and in demand skills and demonstrates how those skills can be used to make the best research decisions The book takes students through the entire real world research process from the formation of a research topic to measurement and sampling to methods for gathering information and making sense of the data and finally presenting to a non academic audience in a way that gets the job done Resources for instructors and students are available on an accompanying website for the book
