

Historical Thinking Concepts

Padhraic Smyth

Historical Thinking Concepts:

The Big Six Peter C. Seixas, Tom Morton, Jill Colyer, Stefano Fornazzari, 2013 Each chapter begins by featuring where a prominent Canadian author has engaged one of the six concepts while writing a work of popular history or historical fiction

pub desc **Teaching about Historical Thinking** Mike Denos, Roland Case, Peter Carr Seixas, Penney Clark, Critical Thinking Consortium, 2006 This resource focuses on six interrelated concepts central to students ability to think about history These core concepts are historical significance evidence continuity and change cause and consequence historical perspective and moral judgment The nature and importance of each concept is discussed as are the problems associated with helping students understand them The resource offers specific suggestions for introducing the concepts to students and for applying them throughout the history curriculum An extended teaching example illustrates how these concepts work in tandem as students learn to think critically about history The resource also includes ample activity sheets to create engaging history lessons

New Directions in Assessing Historical Thinking Kadriye Ercikan, Peter Seixas, 2015-02-20 New technologies have radically transformed our relationship to information in general and to little bits of information in particular The assessment of history learning which for a century has valued those little bits as the centerpiece of its practice now faces not only an unprecedented glut but a disconnect with what is valued in history education More complex processes historical thinking historical consciousness or historical sense making demand more complex assessments At the same time advances in scholarship on assessment open up new possibilities For this volume Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward Their various approaches negotiate the sometimes conflicting demands of theoretical sophistication empirically demonstrated validity and practical efficiency Key issues include articulating the cognitive goals of history education the relationship between content and procedural knowledge the impact of students language literacy on history assessments and methods of validation in both large scale and classroom assessments New Directions in Assessing Historical Thinking is a critical research oriented resource that will advance the conceptualization design and validation of the next generation of history assessments

Cases on Historical Thinking and Gamification in Social Studies and Humanities Education Martínez-Hita, María, Carrasco, Cosme Jesús Gómez, Miralles-Martínez, Pedro, 2022-06-30 Research on history education and historical thinking is becoming increasingly relevant internationally The need for a renewal of history education is not only justified by the epistemology of history itself but also by the demand for a methodological change in education in general making students active protagonists in the construction of their learning and based on the development of competencies Further study on the potential use of gamification within social studies and humanities education is required to understand its benefits and challenges Cases on Historical Thinking and Gamification in Social Studies and Humanities Education proposes and analyzes gamification as a pedagogical innovation that can enable the renewal of the teaching and learning process of

history facilitating the active learning of historical thinking concepts while influencing students conceptions of history as a discipline and as a school subject Covering key topics such as historical thinking social sciences video games and mobile learning this reference work is ideal for historians policymakers researchers scholars academicians practitioners instructors and students **Teaching Historical Thinking** Mike Denos,Roland Case,Stefan Stipp,Lindsay Gibson,James Miles,2023

Beyond History for Historical Consciousness Stephane Levesque,Jean-Philippe Croteau,2020-04-02 As issues of history memory and identity collide with increasing frequency and intensity in the classroom and society the timing is ideal to investigate the impact of these forces on twenty first century students Relying on the theory of historical consciousness this book presents the results of a comprehensive study conducted with over 600 French Canadian students that examines their narrative views of the collective past The authors offer new evidence on how young citizens from various regions and ethnocultural groups in Quebec and Ontario think about their national history and what impact education historical culture and the real life curriculum of meaningful experiences have on the formation of narration identity and historical consciousness

Historical Thinking for History Teachers Tim Allender,2020-07-16 Effective Australian history education has never been more important for the development of critically aware and thoughtful young people History fosters important skills in reasoning historical consciousness and empathy and an appreciation of history is crucial to the development of students understanding of the very nature of our society This edited collection comprises contributions from leading historians educators and practising teachers and surveys Australian history teaching today from the development of the national curriculum to fostering historical thinking and promoting effective engagement in the history classroom The book begins with an analysis of the principles underlying the drafting of the national curriculum and features insights from the writers of the curriculum themselves It focuses on the curriculum from primary and secondary school teaching perspectives Part 2 examines the teaching of historical expertise including historical thinking and value formation as well as productive assessment and the important role social history can play in the classroom Part 3 concentrates on specific approaches to history teaching including teacher talk the use of historical fiction and film digital technology and the internet as well as museums as a teaching medium Part 4 analyses key aspects of Australian history teaching including Indigenous perspectives teaching citizenship and assisting the pre service teacher in their transition to becoming a professional Rich with insights into historical skills historical concepts and critical thinking as well as practical guidance on translating principles into engaging classroom approaches this is an essential reference for both pre service and in service history teachers and educators

The Palgrave Handbook of History and Social Studies Education Christopher W. Berg,Theodore M. Christou,2020-04-03 This Handbook presents an international collection of essays examining history education past and present Framing recent curriculum reforms in Canada and in the United States in light of a century long debate between the relationship between theory and practice this collection contextualizes the debate by exploring the

evolution of history and social studies education within their state or national contexts With contributions ranging from Canada Finland New Zealand Sweden the Netherlands the Republic of South Africa the United Kingdom and the United States chapters illuminate the ways in which curriculum theorists and academic researchers are working with curriculum developers and educators to translate and refine notions of historical thinking or inquiry as well as pedagogical practice

History Education and Historical Inquiry Bob Bain, Arthur Chapman, Alison Kitson, Tamara Shreiner, 2024-04-03 This volume explores the role of historical inquiry in history education addressing its meaning forms and effectiveness in classrooms It presents seventeen papers from eight countries offering insights into teachers inquiry practices and the impact on students historical learning

Globalisation, Nation-Building and History Education Joseph Zajda, John Whitehouse, 2024-03-19 This book uses historiography and discourse analysis to provide a new insight into understanding the nexus between ideologies the state and nation building as depicted in history school textbooks It focuses on the interpretation of social and political change significant events and examining possible new biases and omissions in school textbooks The Europeanization of history textbooks in the EU is an example of western dominated Grand Narrative of pluralist democracy multiculturalism and human rights according to the canon of a particularly European dimension Various public debates in the USA China the Russian Federation RF Japan and elsewhere dealing with understandings of a nation building national identity and history education point out to parallels between the political significance of school history and the history education debates globally The book demonstrates that the issue of national identity and balanced representations of the past continue to dominate the debate surrounding the goals dominant ideologies and content of history textbooks and historical narratives It concludes that competing discourses and ideologies will continue to define and shape the nature and significance of historical knowledge ideologies and the direction of values education in history textbooks This book provides an easily accessible practical yet scholarly insights into local and global trends in the field of history education and should be required reading for a broad spectrum of users including policy makers academics graduate students education policy researchers administrators and practitioners
