viles Algunos trabajos dan cuenta de este fenómeno tecnológico aplicado al área educativa. Ciertos autores entienden la educación como un sistema orgánico en red en donde no existe un único centro sino que este sistema está formado por distintos nodos que se relacionan de formas múltiples al perseguir objetivos, compartir entornos y sobre todo compartir recursos de toda índole. A estos trabajos se les llaman proyectos ecosistémicos. Cuando diversos autores nos plantean que las habilidades prioritarias en la Sociedad del Aprendizaje son las cognitivas, nos muestran sus posturas sobre la correlación cognición versus tecnología y sobre todo el pensamiento crítico y la conceptualización del pensamiento heurístico. Estas posturas las encontraremos en este libro. Es gracias a las innovaciones tecnológicas que se producen cada vez más las convergencias tecnológicas de medios. Ello porque surgen nuevas combinaciones y formas de integración en el campo educativo. Este material muestra tanto la convergencia tecnológica de medios como la convergencia de inteligencias para la tecnología educativa. Por otro lado, la evaluación es un proceso social continuo que se puede volver más integral y representativo de los avances cognitivos si se incluyen de manera adecuada las tecnologías a lo largo del proceso de enseñanza-aprendizaje. Dada la importancia de la actividad de evaluación se presentan varias experiencias en este libro. También aquí se dan cita trabajos relativos a las múltiples perspectivas, miradas nuevas y enfoques novedosos con los que se relacionan todas las dimensiones que convergen en la evaluación de los procesos de enseñanza-aprendizaje utilizando tecnologías de la información y la comunicación. Así pues, valga este cúmulo de prácticas para apoyar los procesos de enseñanza-aprendizaje en todos los sistemas y niveles educativos de todos los actores intervinientes para entre todos coconstruir socialmente una cultura digital educativa que nos caracterice como sociedad educativa innovadora y emprendedora. Que disfruten su lectura. El comité editorial.
