those involved in the international sale of goods must refer to a multitude of laws. Indeed the CISG itself does not cover all issues relating to international sales contracts so it must necessarily be supplemented by domestic law. *Global Sales and Contract Law* provides a truly comparative analysis of domestic laws in over sixty countries so as to deliver a global view of domestic and international sales law. The book reports on the real practice of sales law taking into account present day problems. Complex questions on the obligations under a sales contract, the ways in which these are established as well as the remedies following the breach of obligations are all discussed. By addressing regional uniform projects like OHADA and comparing differences in domestic legal approach where the CISG would not apply, the work goes beyond existing commentaries which tend to focus only on the CISG. The analysis has been based on an unprecedented survey drawn from the world's top fifty companies as well as international traders, lawyers, advising international traders, arbitral institutions, arbitrators and law schools. This work encompasses all aspects of a sale of goods transaction and takes a wide view of sale by including general contract law. The book gives practitioners invaluable insight into judicial trends and possible solutions in different legal systems whether preparing for litigation or drafting an international contract. *Global Sales and Contract Law* is the most comprehensive and thorough compilation of legal analysis in the field of the sale of goods and is a reliable source for any practitioner dealing in international commerce.
