(Received 30 July 1990; accepted 1 October 1990)

A frequently encountered problem in molecular dynamics is how to treat the long times that are required to simulate condensed systems consisting of mixtures of light and heavy particles. Standard methods require the choice of time step sufficiently small to guarantee stable solution for the low mass component with the consequence that these simulations require a very large number of central processing unit cycles to treat the relaxation of the heavier component. In this note, we present a new method that allows one to use a time step appropriate for the heavy particles. This method uses a similar idea to numerical analytical propagator algorithm, an algorithm we invented to treat high frequency oscillators interacting with low frequency baths and is based on a choice of a reference system for the light particle motions. The method is applied to the case of a liquid containing 864 Lennard-Jones spheres, 824 of these particles having a mass, $M = 100$ and 40 spheres picked at random have a mass $m = 1$. It is shown that molecular dynamics using the new algorithm runs seven to ten times faster than standard methods and this approach as well as suitable generalizations should be very useful for future simulations of quantum and classical condensed matter systems.

I. INTRODUCTION

Consider a system consisting of a mixture of light (mass = m) and heavy spheres (mass = M). In such systems, there is a disparity in the molecular dynamic time scales. If one wishes to simulate such systems using the standard integrators of molecular dynamics, then the maximum time step that can be used to integrate the equations of motion must be chosen to insure accurate integration of the low mass component with the consequence that a very small time step is needed. When a large disparity in time scales exists, a very large number of central processing unit (CPU) cycles will be required to allow the slow degrees of freedom to fluctuate enough to obtain converged time averages for the whole system.

In this paper, a method for accelerating the simulation of such systems is presented. This method, called RESPA (reference system propagator algorithm), is a variant of the numerical analytical propagator algorithm (NAPA), algorithm that we invented for treating the problem of high frequency oscillators coupled to low frequency oscillators.¹ The RESPA method is based on numerical solutions of the reference system equations. The gist of the method is to define a dynamical reference system for the fast motion and to derive equations of motion for the deviation $\delta(t)$ of the fast coordinates from the reference system coordinates. These deviations are coupled to the equations of motion of the slow coordinates. The fast dynamical system is integrated for n small time steps $\omega\delta t$ holding the slow coordinates fixed. The time dependence of the reference system is then fed into the coupled equations for $\delta(t)$ and the slow coordinates and the resulting equations are integrated for one large time step

$\Delta t = n\delta t$. The initial conditions for each large time step are then chosen so that this deviation $\delta(t)$ is zero with the consequence that the deviation is always kept small. The only approximation in this algorithm springs from the numerical integrator used to integrate the equations of motion of the reference system and the coupled equations. Otherwise, the method is self-correcting and exact. For simplicity, the reference system is taken to be the Hamiltonian of the original system with the slow coordinates held fixed at their values at the beginning of the time step.

Teleman and Jönsson² have proposed a multiple time-step (TJMTS) method in which the forces are separated into slow and fast components. This separation yields a set of coupled equations of motion for the slow and fast degrees of freedom. TJMTS uses a small step δt to advance the fast degrees of freedom n steps holding the slow variables fixed. The slow degrees of freedom are then updated using a time step $\Delta t = n\delta t$. This method does not correct for the errors incurred in the approximate factorization of the equations of motion, a fact which shows up in poor energy conservation. This is well illustrated when we compare the results of RESPA, TJMTS, and velocity Verlet³ (using a small time step). Swindoll and Halle⁴ have proposed a more accurate multiple time-step method than Teleman and Jönsson, but their method requires high-order spatial derivatives of the potential and is therefore more computationally intensive than RESPA.

For simplicity, we apply this new method to the simulation of a mixture of Lennard-Jones spheres consisting of 824 heavy spheres of mass $M = 100$ and 40 light spheres of mass $m = 1$. For Lennard-Jones (LJ) spheres, the two time scales are $\Delta t_f = \sqrt{m\sigma^2}/\epsilon_1$ and $\Delta t_s = \sqrt{M\sigma^2}/\epsilon_2$, where σ_i and ϵ_i are the Lennard-Jones parameters for component i . For il-

Molecular Dynamics Algorithm For Multiple Time Scales

Jeremiah U. Brackbill, Bruce I. Cohen

Molecular Dynamics Algorithm For Multiple Time Scales:

Multiple Time Scales Jeremiah U. Brackbill, Bruce I. Cohen, 2014-05-10 Multiple Time Scales presents various numerical methods for solving multiple time scale problems The selection first elaborates on considerations on solving problems with multiple scales problems with different time scales and nonlinear normal mode initialization of numerical weather prediction models Discussions focus on analysis of observations nonlinear analysis systems of ordinary differential equations and numerical methods for problems with multiple scales The text then examines the diffusion synthetic acceleration of transport iterations with application to a radiation hydrodynamics problem and implicit methods in combustion and chemical kinetics modeling The publication ponders on molecular dynamics and Monte Carlo simulations of rare events direct implicit plasma simulation orbit averaging and subcycling in particle simulation of plasmas and hybrid and collisional implicit plasma simulation models Topics include basic moment method electron subcycling gyroaveraged particle simulation and the electromagnetic direct implicit method The selection is a valuable reference for researchers interested in pursuing further research on the use of numerical methods in solving multiple time scale problems

Classical And Quantum Dynamics In Condensed Phase Simulations: Proceedings Of The International School Of Physics Bruce J Berne, Giovanni Ciccotti, David F Coker, 1998-06-17 The school held at Villa Marigola Lerici Italy in July 1997 was very much an educational experiment aimed not just at teaching a new generation of students the latest developments in computer simulation methods and theory but also at bringing together researchers from the condensed matter computer simulation community the biophysical chemistry community and the quantum dynamics community to confront the shared problem the development of methods to treat the dynamics of quantum condensed phase systems This volume collects the lectures delivered there Due to the focus of the school the contributions divide along natural lines into two broad groups 1 the most sophisticated forms of the art of computer simulation including biased phase space sampling schemes methods which address the multiplicity of time scales in condensed phase problems and static equilibrium methods for treating quantum systems 2 the contributions on quantum dynamics including methods for mixing quantum and classical dynamics in condensed phase simulations and methods capable of treating all degrees of freedom quantum mechanically

Computational Molecular Dynamics: Challenges, Methods, Ideas Peter Deuffhard, Jan Hermans, Benedict Leimkuhler, Alan E. Mark, Sebastian Reich, Robert D. Skeel, 2012-12-06 On May 21 24 1997 the Second International Symposium on Algorithms for Macromolecular Modelling was held at the Konrad Zuse Zentrum in Berlin The event brought together computational scientists in fields like biochemistry biophysics physical chemistry or statistical physics and numerical analysts as well as computer scientists working on the advancement of algorithms for a total of over 120 participants from 19 countries In the course of the symposium the speakers agreed to produce a representative volume that combines survey articles and original papers all refereed to give an impression of the present state of the art of Molecular Dynamics The 29 articles of the book reflect the main topics of the Berlin meeting which

were i Conformational Dynamics ii Thermodynamic Modelling iii Advanced Time Stepping Algorithms iv Quantum Classical Simulations and Fast Force Field and v Fast Force Field Evaluation

Computer Simulations in Condensed Matter: From Materials to Chemical Biology. Volume 1 Mauro Ferrario, Giovanni Ciccotti, Kurt Binder, 2007-03-09 This comprehensive collection of lectures by leading experts in the field introduces and reviews all relevant computer simulation methods and their applications in condensed matter systems Volume 1 is an in depth introduction to a vast spectrum of computational techniques for statistical mechanical systems of condensed matter Volume 2 is a collection of state of the art surveys on numerical experiments carried out for a great number of systems

Reaction Dynamics in Clusters and Condensed Phases Joshua Jortner, R.D. Levine, A. Pullman, 2012-12-06 The Twenty Sixth Jerusalem Symposium reflected the high standards of these distinguished scientific meetings which convene once a year at the Israel Academy of Sciences and Humanities in Jerusalem to discuss a specific topic in the broad area of quantum chemistry and biochemistry The topic at this year s Jerusalem Symposium was reaction dynamics in clusters and condensed phases which constitutes a truly interdisciplinary subject of central interest in the areas of chemical dynamics kinetics photochemistry and condensed matter chemical physics The main theme of the Symposium was built around the exploration of the interrelationship between the dynamics in large finite clusters and in infinite bulk systems The main issues addressed microscopic and macroscopic solvation phenomena cluster and bulk spectroscopy photodissociation and vibrational predissociation cage effects interphase dynamics reaction dynamics and energy transfer in clusters dense fluids liquids solids and biophysical systems The interdisciplinary nature of this research area was deliberated by intensive and extensive interactions between modern theory and advanced experimental methods This volume provides a record of the invited lectures at the Symposium

Liquid Crystals and their Computer Simulations Claudio Zannoni, 2022-07-28 Standing as the first unified textbook on the subject Liquid Crystals and Their Computer Simulations provides a comprehensive and up to date treatment of liquid crystals and of their Monte Carlo and molecular dynamics computer simulations Liquid crystals have a complex physical nature and therefore computer simulations are a key element of research in this field This modern text develops a uniform formalism for addressing various spectroscopic techniques and other experimental methods for studying phase transitions of liquid crystals and emphasises the links between their molecular organisation and observable static and dynamic properties Aided by the inclusion of a set of Appendices containing detailed mathematical background and derivations this book is accessible to a broad and multidisciplinary audience Primarily intended for graduate students and academic researchers it is also an invaluable reference for industrial researchers working on the development of liquid crystal display technology

Wspc Reference On Organic Electronics, The: Organic Semiconductors (In 2 Volumes) Seth R Marder, Jean-luc Bredas, 2016-06-24 This 2 volume set provides the reader with a basic understanding of the foundational concepts pertaining to the design synthesis and applications of conjugated organic materials used as organic semiconductors in areas including

organic photovoltaic devices light emitting diodes field effect transistors spintronics actuation bioelectronics thermoelectrics and nonlinear optics While there are many monographs in these various areas the emphasis here is both on the fundamental chemistry and physics concepts underlying the field of organic semiconductors and on how these concepts drive a broad range of applications This makes the volumes ideal introductory textbooks in the subject They will thus offer great value to both junior and senior scientists working in areas ranging from organic chemistry to condensed matter physics and materials science and engineering Number of Illustrations and Tables 168 b w illus 242 colour illus 13 tables **Multiscale Computational Methods in Chemistry and Physics** Achi Brandt, Jerzy Bernholc, Kurt Binder, 2001 This book brings together interdisciplinary contributions ranging from applied mathematics theoretical physics quantum chemistry and molecular biology all addressing various facets of the problem to connect the many different scales that one has to deal with in the computer simulation of many systems of interest in chemistry e g polymeric materials biological molecules clusters surface and interface structure Particular emphasis is on the multigrid technique and its applications ranging from electronic structure calculations to the statistical mechanics of polymers *Long Time Scale Computer Simulations of Proteins* Peter Eastman, 2000 *Theoretical Biophysics Technical Report*, 1991 **Multiple-time-scale Order Reduction for Stochastic Kinetics and Molecular Simulation of Crystallization** Ethan Allen Sturman Mastny, 2007 □□□□ □□□□ 1953, *Dissertation Abstracts International*, 2008 **Bridging the Time Scales** Peter. Nielaba, Michel Mareschal, Giovanni Ciccotti, 2014-01-15 *SIAM Journal on Scientific Computing*, 2003 *Monte Carlo and Molecular Dynamics of Condensed Matter Systems* Kurt Binder, Giovanni Ciccotti, 1996 *Bridging the Time Scales* Peter Nielaba, Michel Mareschal, Giovanni Ciccotti, 2002-12-19 The behaviour of many complex materials extends over time and lengthscales well beyond those that can normally be described using standard molecular dynamics or Monte Carlo simulation techniques As progress is coming more through refined simulation methods than from increased computer power this volume is intended as both an introduction and a review of all relevant modern methods that will shape molecular simulation in the forthcoming decade Written as a set of tutorial reviews the book will be of use to specialists and nonspecialists alike **ACS Directory of Graduate Research 1993** American Chemical Society. Committee on Professional Training, 1993 **5th International Conference on Multibody Systems, Nonlinear Dynamics, and Control**, 2005 *Pacific Symposium on Biocomputing*, 1996

Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Molecular Dynamics Algorithm For Multiple Time Scales**

In a world inundated with monitors and the cacophony of immediate transmission, the profound energy and emotional resonance of verbal art frequently fade in to obscurity, eclipsed by the constant assault of sound and distractions. However, situated within the musical pages of **Molecular Dynamics Algorithm For Multiple Time Scales**, a interesting perform of literary elegance that impulses with raw thoughts, lies an remarkable journey waiting to be embarked upon. Composed by way of a virtuoso wordsmith, this enchanting opus instructions readers on a psychological odyssey, gently exposing the latent potential and profound affect stuck within the intricate internet of language. Within the heart-wrenching expanse of the evocative evaluation, we will embark upon an introspective exploration of the book is central subjects, dissect its interesting publishing design, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.

Molecular Dynamics Algorithm For Multiple Time Scales Introduction

Molecular Dynamics Algorithm For Multiple Time Scales Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Molecular Dynamics Algorithm For Multiple Time Scales Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Molecular Dynamics Algorithm For Multiple Time Scales : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Molecular Dynamics Algorithm For Multiple Time Scales : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Molecular Dynamics Algorithm For Multiple Time Scales Offers a diverse range of free eBooks across various genres. Molecular Dynamics Algorithm For Multiple Time Scales Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Molecular Dynamics Algorithm For Multiple Time Scales Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Molecular Dynamics Algorithm For Multiple Time Scales, especially related to Molecular Dynamics Algorithm For Multiple Time Scales, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Molecular Dynamics Algorithm For Multiple Time Scales, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Molecular Dynamics Algorithm For Multiple Time Scales books or magazines might include. Look for these in online stores or libraries. Remember that while Molecular Dynamics Algorithm For Multiple Time Scales, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow

sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Molecular Dynamics Algorithm For Multiple Time Scales eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Molecular Dynamics Algorithm For Multiple Time Scales full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Molecular Dynamics Algorithm For Multiple Time Scales eBooks, including some popular titles.

FAQs About Molecular Dynamics Algorithm For Multiple Time Scales Books

1. Where can I buy Molecular Dynamics Algorithm For Multiple Time Scales books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Molecular Dynamics Algorithm For Multiple Time Scales book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Molecular Dynamics Algorithm For Multiple Time Scales books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Molecular Dynamics Algorithm For Multiple Time Scales audiobooks, and where can I find them? Audiobooks:

- Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
 9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
 10. Can I read Molecular Dynamics Algorithm For Multiple Time Scales books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
