

# Chapter 2...Population

Demography is the study of population.

Population Geography (Geodemography) is the study of everything about human population, including; density, distribution, fertility, gender, living standard, health, age, nutrition, mortality, mobility.

Total Fertility Rate (TFR) is the average number of children born to a woman in a country. **To keep the country's population at the same number the TFR needs to be 2.1 (Why 2.1? To replace each parent plus plan for some infant death.)**

The highest recorded TFR was 8.1 in Kenya in 1980, while the lowest is presently .80 in Italy. Immigration is not counted in the TFR. Some countries are trying to cut their TFR and population (China) while others are actually trying to increase their population (Russia). Why would they do that? What happens to your country if you have too few people?

## Adopting the Beat of Appearance: An Psychological Symphony within **Chapter 2 Population Ap Human Geography Answers**

In a world taken by screens and the ceaseless chatter of fast transmission, the melodic splendor and psychological symphony developed by the prepared word usually fade into the background, eclipsed by the constant sound and distractions that permeate our lives. Nevertheless, nestled within the pages of **Chapter 2 Population Ap Human Geography Answers** a wonderful literary prize overflowing with fresh thoughts, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that interesting masterpiece conducts visitors on a mental trip, well unraveling the hidden songs and profound impact resonating within each cautiously constructed phrase. Within the depths of this touching assessment, we will explore the book is key harmonies, analyze its enthralling writing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
