Motivation and Foreign Language Learning David Lasagabaster, Aintzane Doiz, Juan Manuel Sierra, 2014-07-31 Motivation is a key aspect of second language learning There is no doubt that abstract models are basic to gain theoretical insights into motivation however teachers and researchers demand comprehensible explanations for motivation that can help them to improve their everyday teaching and research The aim of this book is to provide both theoretical insights and practical suggestions to improve motivation in the classroom With this in mind the book is divided into two sections the first part includes innovative ideas regarding language learning motivation whereas the second is focused on the relationship between different approaches to foreign language learning such as EFL English as a foreign language CLIL Content and Language Integrated Learning or immersion and motivation Both sections have an emphasis on pedagogical implications that are rooted in both theoretical and empirical work

Magel, 2017-06-15 Seminar paper from the year 2012 in the subject Didactics for the subject English Pedagogy Literature Studies grade 2 0 Saarland University language English abstract Motivation in second language learning is an increasingly important area in applied linguistics The current state of research is characterized by many different approaches which have developed over time Today there are still divided views about motivation The social psychological approach dominated until the early 1990s Criticized later supplemented and eventually replaced by pedagogical and psychological concepts In order to understand the importance of motivation in second language learning it is important to look at different types of motivation

after clarifying the definition of the term motivation used in the text below This paper has been divided into three parts First I will give a definition of the term motivation Then I will focus on different kinds of motivation especially the distinctions between motivation regarding learning in general by Deci and Ryan and motivation especially in language learning by Gardner Finally the practical part deals with motivation in second language classroom in Saarland Thus the main question addressed in this paper is How important is motivation in second language learning

their later lives They simply learn it because it is in the curriculum of their school which is designed for the needs of society rather than for the learner s interests This does not seem like a good point of departure for a successful learning process So it is the teacher s major challenge to motivate the students to put effort in learning the foreign language But how does motivation influence second language learning This paper will define motivation and introduce different motivation theories Then it will discuss the influences of motivation on second language learni

Motivation and Motivating in the Foreign Language Classroom Steffi Joetze,2011-06-27 Seminar paper from the year 2008 in the subject Didactics for the subject English Pedagogy Literature Studies grade 2 0 University of Cologne language English abstract The study of motivation to learn a L2 is a thoroughly discussed and researched subject in the field of L2 acquisition Nevertheless questions like What is motivation How do humans get motivated What specifies motivation in language learning Nakata 2006 p 23 are very difficult maybe even impossible to answer entirely So the aim of the following investigation should not be to give a complete picture of research on L2 motivation but to explore special parts of this extensive topic more precisely and to find out what exactly a teacher can contribute to a motivational teaching in the L2 classroom To show how to enhance students motivational intensity it is necessary to know what motivation is Therefore the complex theoretical concept of motivation itself will be dealt with at first in this paper Furthermore there are various kinds of motivation which have been identified by researchers Some of them will be presented in connection with their theoretical concepts and with reference to this it should be discussed if there is a type of motivation being most effective in terms of L2 learning In a further step the factors of L2 motivation influencing the level of L2 learning motivation will be investigated in more detail Having dealt with the nature of motivation itself and its factors the research will have a more practical orientation to the foreign language classroom For that the point of view will be directed towards teachers and their possibilities of using motivational strategies and techniques in the foreign language classroom The question how students motivation can be increased should be the issue to discuss in this place
