**Operations Research: Principles and Practice** Don T. Philips,1998 An Enduring Quest Ferd Leimkuhler,2019-07-15 The process of industrialization that began over two hundred years ago is continuing to change the way people work and live and doing it very rapidly in places like China and India At the forefront of this movement is the profession of industrial engineering that develops and applies the technology that drives industrialization This book describes how industrial engineering evolved over the past two centuries developing methods and principles for the planning design and control of production and service systems The story focuses on the growth of the discipline at Purdue University where it helped shape the university itself and made substantial contributions to the industrialization of America and the world The story includes colorful and creative people like Frank and Lillian Gilbreth of Cheaper by the Dozen fame Lillian was the first lady of American engineering as well a founder of Purdue s Industrial Engineering **Operations Research** Ravindran A.,2001 **Cause and Effect Business Analytics and Data Science** Dominique Haughton,Jonathan Haughton,Victor S. Y. Lo,2025-07-15 Among the most important questions that businesses ask are some very simple ones If I decide to do something will it work And if so how large are the effects To answer these predictive questions and later base decisions on them we need to establish causal relationships Establishing and measuring causality can be difficult This book explains the most useful techniques for discerning causality and illustrates the principles with numerous examples from business It discusses randomized experiments aka A B testing and techniques such as propensity score matching synthetic controls double differences and instrumental variables There is a chapter on the powerful AI approach of Directed Acyclic Graphs aka Bayesian Networks another on structural equation models and one on time series techniques including Granger causality At the heart of the book are four chapters on uplift modeling where the goal is to help firms determine how best to deploy their resources for marketing or other interventions We start by modeling uplift discuss the test and learn process and provide an overview of the prescriptive analytics of uplift The book is written in an accessible style and will be of interest to data analysts and strategists in business to students and instructors of business and analytics who have a solid foundation in statistics and to data scientists who recognize the need to take seriously the need for causality as an essential input into effective decision making **Decision Making Systems in Business Administration** ,2013 This book analyzes some of the most recent advances in the field of decision making and fuzzy systems applied to business and economics presented at

the International Conference on Modeling and Simulation MS 12 Rio de Janeiro 10-13 December 2012 In this conference a special focus is given to the fundamental concept of sustainable development Other key applications in business economics and finance are also considered In general it is very useful for graduate students and researchers interested in pursuing research that combines quantitative techniques such as modeling and simulation and decision making with business and economic problems This is especially useful when dealing with complex environments where the information is very uncertain and additional mathematical and statistical techniques are needed in order to understand the specific situations considered *Harvard Business School Core Collection* 1995 Baker Library,1995 *Interactive Multiobjective Decision Making Under Uncertainty* Hitoshi Yano,2017-02-03 Recently many books on multiobjective programming have been published However only a few books have been published in which multiobjective programming under the randomness and the fuzziness are investigated On the other hand several books on multilevel programming have been published in which multiple decision makers are involved in hierarchical decision situations In this book we introduce the latest advances in the field of multiobjective programming and multilevel programming under uncertainty The reader can immediately use proposed methods to solve multiobjective programming and multilevel programming which are based on linear programming or convex programming technique Organization of each chapter is summarized as follows In Chapter 2 multiobjective programming problems with random variables are formulated and the corresponding interactive algorithms are developed to obtain a satisfactory solution in which the fuzziness of human's subjective judgment for permission levels are considered In Chapter 3 multiobjective programming problems with fuzzy random variables are formulated and the corresponding interactive algorithms are developed to obtain a satisfactory solution in which not only the uncertainty of fuzzy random variables but also the fuzziness of human's subjective judgment for permission levels are considered In Chapter 4 multiobjective multilevel programming is discussed and the interactive algorithms are developed to obtain a satisfactory solution in which the hierarchical decision structure of multiple decision makers is reflected In Chapter 5 two kinds of farm planning problems are solved by applying the proposed method in which cost coefficients of crops are expressed by random variables **American Book Publishing Record** ,1998 *Operations Research* Solberg,1996-01-01 **Harvard Business School Core Collection, 1998** Baker Library,1998 This guide lists approximately 3 500 books recent titles of general interest to the business reader that Harvard Business School faculty researchers and students consider central to their work Revised and updated annually it includes the full bibliographic record for each book and features an appendix of publishers addresses as well as indexes by title author core classics and notable books *Mine Planning and Equipment Selection* 1995 J.
