

ENVIRONMENTAL TOOLBOX TALKS

As part of our ongoing commitment to clients, RSK is offering a series of **FREE** toolbox talks for companies based in the Republic of Ireland.

Skills and knowledge transfer through training can help you achieve corporate health, safety and environmental goals, which are fundamental to your ability to stay competitive and profitable. Competent, capable and committed staff are vital to the successful delivery of each and every one of your projects.

The content of our presentation sessions and the delivery format can be tailored specifically to suit your organisational needs. These may include toolbox talks, brown bag lunches, management meetings, site meetings or workshops. The sessions can also be delivered as part of your wider CPD programme.

Examples of topics available:

- contaminated land in planning
- asbestos regulations
- challenge of waste management, including waste classification and site waste management plans (SWMP)
- sustainable and economical remediation technologies
- environmental due-diligence for site acquisitions
- environmental impact assessments, including archaeology, cultural heritage and ecology
- carbon management
- management systems implementation and support
- HSE compliance audits

Environmental liabilities and regulatory issues can be managed in a sustainable and efficient way. Our toolbox talks will help your employees and colleagues to understand environmental issues so that you can better advise your own clients. Understanding site-specific issues that may arise on a project will also help to avoid potentially costly delays and ensure that the right information is obtained at an early stage in the process.

Environmental Toolbox Talks:

Environmental Health and safety: Principles and Practices Shafqat Alauddin, Prof. Chaitali Bhattacharya, Dr. Shalini Rawat, Dr. Alok Kumar Saran, 2024-08-28 Environmental Health and Safety Principles and Practices provides a comprehensive overview of the fundamental concepts and practices essential for ensuring environmental health and safety in various settings. This explores critical topics such as hazard identification, risk assessment, regulatory compliance, and the implementation of effective safety management systems. With a focus on both theoretical frameworks and practical applications, it serves as an invaluable resource for professionals in environmental health, safety management, and related fields, fostering a culture of safety and sustainability in the workplace and community.

Environmental Technology in the Oil Industry Stefan Orszulik, 2016-01-26 This significantly updated edition looks at each stage in the life cycle of petroleum products from exploration to end use, examining the environmental pressures on the oil industry and its response. Technical developments are progressing in line with environmental concerns and increasing sophistication of computer modelling techniques. These subjects are interrelated but have often been dealt with independently. This book explores these topics together in a way that is understandable to the non-expert and those who are expert in one field but wish to see their expertise discussed in the overall context. Written primarily for those working in the oil and related industries, this book also provides essential reference material for government and research institutions and all those with an interest in environmental technological issues.

ISO 14001 Environmental Certification Step by Step A J Edwards, 2003-11-05 The do it yourself manual with steps to success and simple explanatory notes designed for real companies. ISO 14001 Environmental Certification Step by Step has been written with smaller companies especially in mind. Dr A J Edwards explains how to achieve the ISO 14001 standard. Together these provide a quick and straightforward guide to achieving the requirements of ISO 14001 Environmental Certification. This revised edition has been updated to cover the latest developments in the interpretation of the standard plus changes in related legislation such as the EU's Eco Management and Audit Scheme (EMAS), Control of Pollution regulations, Dangerous Substances and Explosive Atmospheres Regulations, Landfill charges, Pollution Prevention and Control, and Asbestos Regulations. In addition, the new ISO 19011:2002 standard for auditing is reflected in the book as are approaches to phased introduction of ISO 14001. Many organisations working towards ISO 14001 already possess ISO 9000 registration or choose to achieve ISO 14001 and ISO 9000 simultaneously as an integrated system. To prevent duplication, ISO 14001 Environmental Certification Step by Step includes cross-referencing of ISO 14001 requirements to the relevant procedures in the Quality System. A do it yourself manual with steps to success and simple explanatory notes. Revised and updated to cover developments in the interpretation of the standard, changes in related legislation such as the EU's Eco Management and Audit Scheme (EMAS) new standards and standards.
