Game Theory: A Nontechnical Introduction To The Analysis Of Strategy (3rd Edition) Roger A McCain, 2014-04-29 The objective of the third edition of Game Theory A Nontechnical Introduction to the Analysis of Strategy is to introduce the ideas of game theory in a way that is approachable intuitive and interdisciplinary Relying on the Karplus Learning Cycle the book is intended to teach by example Noncooperative equilibrium concepts such as Nash equilibrium play the central role In this third edition increased stress is placed on the concept of rationalizable strategies which has proven in teaching practice to assist students in making the bridge from intuitive to more formal concepts of noncooperative equilibrium The Instructor Manual and PowerPoint Slides for the book are available upon request for all instructors who adopt this book as a course text Please send your request to sales wspc com

The Theory of Gambling and Statistical Logic, Revised Edition Richard A. Epstein, 2014-06-28 Man invented a concept that has since been variously viewed as a vice a crime a business a pleasure a type of magic a disease a folly a weakness a form of sexual substitution an expression of the human instinct He invented gambling Richard Epstein s classic book on gambling and its mathematical analysis covers the full range of games from penny matching to blackjack and other casino games to the stock market including Black Scholes analysis He even considers what light statistical inference can shed on the study of paranormal phenomena Epstein is witty and insightful a pleasure to dip into and read and rewarding to study

Resources in Education ,1990 *The War Game, New Expanded Edition* Irving Louis Horowitz, 2013 War gaming has become a characteristic feature of modern life From amateur clubs to professional academicians playing the war game in the company of military circles we have come up against the phenomenon of the robotization of human life Irving Louis Horowitz argues that those who protest the idea that war is a game do so on moral grounds that leave unanswered tough questions What is the alternative to playing the game What will become of us if we allow the opponent to become the better player in an all or nothing game of extinction Horowitz provides answers in a logical manner while focusing on facts and ethical alternatives to risky ethics The work is divided into three sections The New Civilian Militarists Thermonuclear Peace and Its Political Equivalents and General Theory of Conflict and Conflict Resolution Included are such topics as arms policies and games morals missiles and militarism and conflict consensus and cooperation Horowitz concludes that it is time to register the fact that the basic option to destructive uses of science is not traditional morality but better science a science of survival With a new introduction by Howard Schneiderman along with a major essay and other materials not included in the original edition this classic work is a worthy contribution to intellectual debate in the twenty first century and a must read for military strategists sociologists and historians [Bulletin - Institute of Mathematical Statistics](#) Institute of Mathematical Statistics, 1989
