## **Cabin Book:**

**Cabins in Modern Norwegian Literature** Ellen Rees, 2014-03-06 This book examines the significance of cabins and other temporary seasonal dwellings as important symbols in modern Norwegian cultural and literary history The author uses Michel Foucault's notion of the heterotopia an actual place that also functions imaginatively as a kind of real world utopia to examine how cabins have signified differently during successive periods from an Enlightenment trope of simplicity and moderation through the rise of tourism into a period of increasing individualism and alienation from nature For each period discussed the author relates a widely recognized real world cabin to a cluster of thematically related literary texts from a wide variety of genres Cabins in Modern Norwegian Literature considers both central canonical works such as Camilla Collett's *The District Governor's Daughters* Bjørnstjerne Bjørnson's *Synn ve Solbakken* Henrik Ibsen's *When We Dead Awaken* and Knut Hamsun's *The Growth of the Soil* as well as less widely known literary works and texts from marginal genres such as hunting narratives and crime fiction In addition the book contains analyses of a few key films from the contemporary period that also activate the cabin as a motif The central argument is that while Norwegians today tend to think of cabin culture as essentially unchanging over a long span of time it has in fact changed dramatically over the past two hundred years and that it is an extremely rich and complex cultural phenomenon deeply imbedded in the construction of national identity

Sebald, 2025-03-25 From the renowned author of *Austerlitz* named a Top 10 Book of the 21st Century by the New York Times comes the first English translation of his extraordinary essays on the Austrian writers who shaped his life and work *Silent Catastrophes* brings together the two books W.G. Sebald wrote on the Austrian writers who meant so much to him *The Description of Misfortune* and *Strange Homeland* published in Austria in 1985 and 1991 As a German in self-chosen exile from his country of birth Sebald found a particular affinity with these writers from a neighboring nation The traumatic evolution of Austria from vast empire to diminutive Alpine republic followed by its annexation by Nazi Germany meant that concepts such as home land borderland and exile occupy a prominent role in its literature just as they would in Sebald's own Through a series of remarkable close readings of texts by Bernhard Stifter Kafka Handke Roth and more Sebald charts both the pathologies which so often drove their work and the seismic historical forces which shaped them This sequence of essays will be a revelation to Sebald's English language readers tracing as they do so many of the themes which animate his own literary writings to which these essays form a kind of prelude This is an essential new edition from a writer whose life and

work has become a wonderful vindication of literary culture in all its subtle and entrancing complexity The Guardian
