You have recently listened to a radio discussion about the options students have when they leave secondary school. You have made the notes below.

What options are open to students after they leave school?

- University
- Work
- Volunteering

Some opinions expressed in the discussion:

‘Further education teaches you to think for yourself.’

‘Entering the labour market as soon as possible can give young people financial freedom.’

‘Before people think about themselves, they should consider thinking about other people.’

Write an essay discussing two of the ways from your notes. You should explain which option you would recommend, providing reasons to support your answer.

You may, if you wish, make use of the opinions expressed in the discussion, but you should use your own words as far as possible.

In the past, those who finished school generally went straight into full-time employment. However, in many countries, school leavers now have other options open to them. Two popular alternatives include attending university or participating in voluntary work.

For centuries, university was a place for the rich and well-connected. While in many countries, such as the USA, tuition fees remain relatively high, it is undeniable that increasing numbers of people are attending universities. One key benefit of this is that further education encourages people to think to think and work independently, which is not only important on a personal level, but for society as a whole.

Another option available after leaving school is voluntary work. This could involve either local volunteering, or travelling abroad. The places where people tend to go abroad are often developing countries in need of basic infrastructure. Travelling to countries in Africa and Asia, volunteers often engage in building projects or education. Despite the fact that they are there to help, recent criticisms have suggested that these developing countries would benefit much more from financial investment, as opposed to another pair of hands.

In conclusion, donating your time to helping those less fortunate may be a noble cause, but if the recent criticisms are valid, it may not be particularly effective. For this reason, those who are able to attend university should consider this option first.
