Foundations Of Statistical Natural Language Processing Exercise Solutions:

Foundations of Statistical Natural Language Processing Christopher Manning, Hinrich Schütze, 1999-05-28

Statistical approaches to processing natural language text have become dominant in recent years. This foundational text is the first comprehensive introduction to statistical natural language processing (NLP) to appear. The book contains all the theory and algorithms needed for building NLP tools. It provides broad but rigorous coverage of mathematical and linguistic foundations as well as detailed discussion of statistical methods allowing students and researchers to construct their own implementations. The book covers collocation, finding word sense, disambiguation, probabilistic parsing, information retrieval, and other applications.
