Tonalization Dr. Shinichi Suzuki, Dr Suzuki questioned why all vocalists vocalize every day to improve their voices but instrumentalists do not do so every day with their instruments He believes that on any instrument one needs to practice to make a more beautiful tone First he talks about playing a beautiful resonant tone with the bow while plucking the string with a finger When a pizzicato is played the resonance goes on for a long time Students should listen to that resonance and play the same kind of clear beautiful sound He talks about how to make a difference in the tone by using a different bow speed how to practice to find the resonance point how to change the weight of the arm on the bow to produce a different kind of tone and how to change tone color This book includes all of Dr Suzuki s basic ideas about tone **Books In Print**
