Canine Enrichment for the Real World Allie Bender,Emily Strong,2019-11-08 In the world of dogs there is now more awareness than ever of the need to provide enrichment especially in shelters But what exactly is enrichment The concept is pretty straightforward learn what your dog s needs are and then structure an environment and routine that allows them to engage in behaviors they find enriching To truly enrich your dog s life you should offer them opportunities to engage in natural or instinctual behaviors Aside from the limitations we have to place on a dog in today s modern busy world the biggest constraint to enriching your dog s life is your imagination What the experts say about Canine Enrichment Don t let the word enrichment in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable It focuses comprehensively on meeting your dog s needs and is written in a holistic science based practical straightforward and easy to understand way I love this book Ken Ramirez author of Animal Training Successful Animal Management Through Positive Reinforcement Canine Enrichment is a deep dive into what dogs really need and how we can provide it It s a great book for dog lovers who want to go beyond the standard superficialities of dogs need exercise Just the chapter on agency is worth the price of the book Patricia McConnell Ph D CAAB Emeritus author of The Other End of the Leash and The Education of Will The scope of
