**Blogging for Profit 2019** Russell C. James,2018-11-25 Why nearly 90% of bloggers only make pocket money from their work and how to be part of the top 10% that makes the big bucks Just a few years ago I was fired from a law firm I used to work for was heavily in debt and was looking for ways to make some side income online That s around the time I started blogging And because I really had no other choice I pushed myself into learning every possible way I could turn my new fitness blog into a money making machine So I did what you re probably doing going through the YouTube videos reading all the articles buying all the courses etc To my dismay I encountered the 3 challenges that stop most bloggers from making any significant income online Information overload The piles of information on the topic and the analysis paralysis that I got as a result prevented me from getting anything done I followed outdated info The internet evolves rapidly and what worked in 2018 may not necessarily work in

2019 I lacked a roadmap with a destination Not knowing what you want and lacking a step by step procedure to get there is the perfect recipe for not getting any results at all Through hard work and dedication I was able to get past these hurdles and eventually made my first 5 figure month a bit over a year later Today I am a multiple six figure earner Because I understand what you re going through I ve written Blogging for Profit 2019 In this book I have structured an easy to follow step by step plan based on up to date information that will make you start your journey towards profit on the right foot In this book you will Discover the hidden step in blog creation that will make or break your blog and how to fix this if you missed it Up to date blog monetization strategies for 2019 Discover how to read the minds of your audience and write tailor suited material for them every time Apply savvy internet marketing secrets for sending massive traffic of buying customers to your blog Win the social media game for getting even more traffic No this is not Facebook Ads Optimize your blog to be found on the internet the right way Discover million dollar brand secrets for having your readers come back to your blog time and time again Bullet proof blog monetization strategies that can make you passive income in less than 60 days 2019 may just be the perfect time to start creating REAL freedom in your life if you play your cards right But Russell I can just learn all of this on my own can t I You could and you could make it work with enough time and money put in However that would cost you a LOT more than the price of this book And what if I have no sales experience Can I still make money No worries we re not force pitching products to anyone Instead we re making interested customers come to us through our blog What if I already have a blog With a few tweaks we can optimize it for making money So don t sweat it s nothing we can t change and improve What are you waiting for Click the add to cart button and get your copy of Blogging for Profit 2019  **Blogging for Profit** Mark Gray,2018-09-08 So many bloggers marketers and entrepreneur don t really realize how a blog can become a goldmine They think to blog as a useless and outdated activity to do because they don t comprise that a blog is one of the most available and profitable Sales Tool and it will remain one of the tops for many years This dumb belief for which blogging is surpassed is made by thinking blogs like only text platforms and it is really stupid In a blog is possible to integrate all the other performing platforms and group them in a unique and high marketable space Of course this is possible only with the right information and techniques This updated manual is the result of more than 10 years of experience Before to be an SEO expert and a writer Mark Gray is a successful online marketer So his main focus is obviously about making money exploiting organic and paid traffic The goal of this practical manual is to help the students make a structured blog and finally understand HOW TO MONETIZE IT What this manual DOESN T include The evolution of Blogging Because no one cares and it is easily findable online How to make a blog in an in depth way Because this is not a geek book Not monetizable techniques Because my students want to make more money and dumb theories do not help Not profitable methods Because my students do not want to lose their time and money Pointless information Outdated strategies Stupid and useless tips Everything else does not really work The really worth approaches are not so much And study a giant incomprehensible and full of useless
