Motor Control Shumway Cook 4th Edition:

Motor Control Anne Shumway-Cook, Marjorie H. Woollacott, 2007 *Motor Control* is the only text to bridge the gap between current motor control research and its applications to clinical practice. The text prepares therapists to examine and treat patients with problems related to balance, mobility, and upper extremity function based on the best available evidence supporting clinical practice. The Third Edition features a new two-color design with an updated art program. This edition provides the latest research findings and their clinical applications in postural control, mobility, and upper extremity function. Drawings, charts, tables, and photographs are also included to clarify postural control and functional mobility and laboratory activities, and case studies are provided to reinforce key concepts.

Orthotics and Prosthetics in Rehabilitation Michelle M. Lusardi, Millee Jorge, Caroline C. Nielsen, 2012-08-03 The most comprehensive physical therapy text available on the topic. *Orthotics and Prosthetics in Rehabilitation* 3rd Edition is your one-stop resource for clinically relevant rehabilitation information. Evidence-based coverage offers essential guidelines on orthotic/prosthetic prescription, pre and post-intervention gait assessment, and outcome measurement and working with special populations. Comprehensive coverage addresses rehabilitation in a variety of environments including acute care, long-term care, and home health care and outpatient settings. Authoritative information from the *Guide to Physical Therapist Practice* 2nd Edition is incorporated throughout. World Health Organization (WHO) International Classification of Function model provides consistent language and an international standard to describe and measure health and disability from a biopsychosocial perspective. Case studies present real-life scenarios that demonstrate how key concepts apply to clinical decision-making and evidence-based practice. A visually appealing 2-color design and a wealth of tables and boxes highlight vital information for quick reference and ease of use. Updated photos and illustrations reflect current clinical practice. Updated chapter on Assessment of Gait focuses on clinically useful outcome measures. Updated chapter on Motor Control and Motor Learning incorporates new insights into neuroplasticity and functional recovery. NEW Integrated chapter on Lower Extremity Orthoses assists in clinical decision-making about the best options for your patients. NEW Chapter on Athletics after Amputation explores advanced training and athletics including running and athletic competition to enhance the quality of life for persons with amputation. NEW Chapter on the High Risk Foot and Wound Healing helps you recognize, treat, and manage wounds for the proper fit and management of the patient. NEW Chapter on Advanced Prosthetic Rehabilitation provides more thorough rehabilitation methods beyond the early care of persons learning to use their prostheses.
