Power ,1904 **Power and the Engineer** ,1904 Experiencing Power, Generating Authority Jane A. Hill, Philip Jones, Antonio J. Morales, 2013-11-14 For almost three thousand years Egypt and Mesopotamia were each ruled by the single sacred office of kingship Though geographically near these ancient civilizations were culturally distinct and scholars have historically contrasted their respective conceptualizations of the ultimate authority imagining Egyptian kings as invested with cosmic power and Mesopotamian kings as primarily political leaders In fact both kingdoms depended on religious ideals and political resources to legitimate and exercise their authority Cross cultural comparison reveals the sophisticated and varied strategies that ancient kings used to unify and govern their growing kingdoms Experiencing Power Generating Authority draws on rich material records left behind by both kingdoms from royal monuments and icons to the written deeds and commissions of kings Thirteen essays provocatively juxtapose the relationships Egyptian and Mesopotamian kings had with their gods and religious mediators as well as their subjects and court officials They also explore the ideological significance of landscape in each kingdom since the natural and built environment influenced the economy security and cosmology of these lands The interplay of religion politics and territory is dramatized by the everyday details of economy trade and governance as well as the social crises of war or the death of a king Reexamining established notions of cosmic and political rule Experiencing Power Generating Authority challenges and deepens scholarly approaches to rulership in the ancient world Contributors Mehmet Ali Ata Miroslav B rta Dominique Charpin D Bruce Dickson Eckart Frahm Alan B Lloyd Juan Carlos Moreno Garcia Ludwig D Morenz Ellen Morris Beate Pongratz Leisten Michael Roaf Walther Sallaberger JoAnn Scurlock PMIRC volume 6 *Bulletin of the Atomic Scientists* ,1993-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
