

HOW THE GAME IS PLAYED

A tennis game always starts with the serve. The server stands behind the base line on the right side of the court. The ball is tossed into the air and hit diagonally across the net into the opponent's court. The opponent then has to hit the ball after the first bounce, and return it back across the net to the server.

A "fault" is committed when the server hits the net with the ball or when the ball is hit outside the service court. The second time a server tries to serve and fails, "a double fault" occurs. The opponent automatically gains a point after a double fault.

Faults can also occur when the server touches the base line or any other part of the court with his/her feet while serving.

A "let ball" is a serve that touches the net but lands in the correct place. This type of ball does not count; the server must serve again.

A ball that touches the net during play is called a "net ball." Net balls are legal and must be played.

Once the first point is made, the server then serves from behind the left base line. The server continues until the opponent wins the serve or until a fault occurs.

The first point in a tennis game is 15, the second is 30 and the third is 40. The final score (or fourth point) is the GAME POINT.

A player must score four points in order to win a game. In a tie game, both sides or players may score three points, or 40-40 (a "DEUCE"). If a player or side wins two more points after a deuce, the game is won.

The "AD" or ADVANTAGE is the first point scored after the deuce. When both players
