

Coasting Theory Lectures Notes

Markus Hupfer and members of the team

September 7, 2024

These are the notes for the first lecture, *Foundations of Coasting Theory*. These are generalised and give insights on problems for all of the course parts. Some are generalised with insight on the lecture, the latter contribution to Coasting Theory and the work of Markus and Peter (publications at <https://www.mhupfer.com>). I also used several other sources for historical, historical topics in Part II course part of Coasting on Coasting Theory and Coasting Theory given by Professor Peter Hupfer, and the last part given with Peter in Coasting Theory for Submarine Transportation course given by Professor Tim Gorman. I also included some more about Peter's 2021 course, Applied Maths for the First Submarine, and the setting of the lecture is based on Mark Hupfer's course notes, "Coasting Theory".

All credits go to those who did my best.
