Developing a sustainable procurement strategy for Fashion Buyers in the German retail sector Mehtap May Isen,2012-05-16 Inhaltsangabe

Introduction 1 1 Subject and background The global economic situation by its ever changing business dynamics such as ambiguities about the market fierce competition consumer behaviour and their changing preferences significantly increases Business Management responsibilities Today as never before people are concerned with the environment and social issues rapidly rising oil prices increasing transparency and consumer interest in how products are made and where they come from pressures Business Managers to create a more transparent and sustainable industry Especially Purchasing Managers play a key role in using their procurement function to foster sustainable development Referring to an international study that was carried out by Capgemini Consulting sustainability efforts constitute the second important business driver on multiple supply chain agendas for 2010 Haarman et al 2009 Companies are rapidly adopting the term into their business or corporate social responsibility CSR reports However a review of the literature will show that the tem sustainability has been inconsistently defined More specifically most of the recent sustainability research has examined issues such as environment human rights and safety in a standalone fashion Seuring et al 2008 Especially Purchasing Managers fail to take the emerged challenge of sustainability into a more integrative perspective They often limit their purchasing policies on environmental considerations only More precisely there does not appear to be a corporate strategy that integrates environmental and social issues together into one purchasing plan Hence the sustainability challenges pressures Purchasing Managers to take the effect of their

purchasing actions on the triple bottom line TBL into account which refers to people planet and profit 1 2 Reason for choice of subject The clothing and textile industry is massive It is worth over US 1trillion worldwide and contributes to 7% of world exports and employs nearly 26 million people Tokatli 2007 Paying a greater attention to fashion retailers the high street dynamic pushed the retail prices for clothing extremely down Sadly consumers are demanding more of low price clothing and consequently fashion becomes more and more disposable In lieu thereof silent sounds approach mainstream retailers sounds from degrading working conditions in manufacturing facilities and threatening environmental

Annotations to the Model Procurement Code for State and Local Governments, with Analytical Summary Or State Enactments ,1996

SDGs in Construction Economics and Organization Göran Lindahl,Stefan Christoffer Gottlieb,2023-07-19 This book examines how research in construction economics and organization contributes to the achievement of the SDGs Featuring selected contributions from the 11th Nordic Conference on Construction Economics and Organisation CREON 2022 held in Copenhagen Demark and Malm Sweden the contributions of this book explore the ways in which research in construction economics and organization assists in building resilient infrastructure fostering green innovations and contributes to

sustainable economic growth Each contribution relates to one or more individual SDG and describes how the research contributes to the understanding of construction management and economics

[The Impact of Management Control Systems on Employees' Behavior During Remote Work](#) Lena Heinz-Schmitt,2024-03-23 The new trend towards flexible work environments has spurred the debate over the effects of remote work on employees behavior and has forced greater consideration of how management control systems must be adjusted to meet the needs of the new work environment While the existing literature has observed several positive behavioral changes such as increased performance and effort counterproductive work behavior has also been identified Combining an experimental and a case study research approach the present study investigates whether a management control system can mitigate unwanted behavior during remote work The experimental study manipulates the use of management controls and analyzes the effects of an enabling vs a coercive management control system on dishonest behavior The data reveal that individuals who perceive the system as enabling and feel a connection to the company behave more honestly during remote work The organizational connection entirely mediates the perception of the management control system on dishonest behavior To further investigate this effect a case study approach was applied Based on interviews several factors are identified that might impact the enabling perception of the control system in remote work settings
