In recent years, there has been a tremendous growth of interest in plant based drugs, pharmaceuticals, perfumery products, cosmetics and aroma compounds used in food flavors and fragrances and natural colors in the world. There is a definite trend to adopt plant based products due to the cumulative derogatory effects resulting from the use of antibiotic and synthetics and except for a few cultivated crops, the availability of plant based material is mainly from the natural sources like forests and wastelands. There is a need to introduce these crops into the cropping system of the country, which, besides meeting the demands of the industry, will also help to maintain the standards on quality, potency and chemical composition.

The Complete Technology Book on Wax and Polishes (Formulae, Manufacturing Processes with Machinery & Equipment Details) 2nd Edition P. K. Chattopadhyay, 2021-01-01
A wax is a simple lipid that is formed by the esterification of a long chain alcohol and a fatty acid
The alcohol might have anything from 12 to 32 carbon atoms
Waxes are found as coats on leaves and stems in nature
The wax helps to keep the plant from losing too much water
Waxes are utilized in a variety of applications around the world including packaging coatings cosmetics foods adhesives inks castings crayons chewing gum polishes and candles
Waxing and polishing serve very distinct purposes in terms of process detailing
Waxing is a method of protecting the paint on the exterior of a vehicle
However Polishing is what is done after a wax to ensure that the vehicle has that glossy shine
Wax does this by smoothing out the painted surface by filling swirls and scratches with a protective coating
The worldwide wax market is growing at a rate of 2.8 percent per year
Over the forecast period rising demand for wax in various applications such as candles packaging rubber plastic processing cosmetics toiletries fire logs adhesives building boards medicines and home automotive polishes is expected to drive market expansion
The market for furniture polish is growing at a rate of 5.0 percent per year
Furniture polish is in high demand due to rising need for harm resistant business and residential settings increased furniture exports and increased furniture production
This will propel the global furniture polish market forward
Increased disposable income as well as government investments in infrastructure development
The major contents of the book are Vegetable Waxes Paraffin Wax Compounds Synthetic Mineral Waxes Other Mineral Waxes Polish Abrasives Metal Cleaners Polishes Microcrystalline Waxes
Photographs of Machinery with Suppliers Contact Details and Plant Layout Process Flow Chart
A comprehensive reference to the Wax and Polishes industry's manufacturing and business success
This book serves as a one stop shop for information on the Wax and Polishes business which offers several prospects for producers retailers and entrepreneurs
This is the only book that covers the entire information of commercial

wax and polish manufacture It provides a feast of how to knowledge from concept through equipment purchase

The Complete Book on Organic Farming and Production of Organic Compost NPCS Board of Consultants & Engineers,2021-04-01 Organic farming composed of organic fertilizers as an integral virtue continues to remain a lucrative bet for the expanding agricultural industry in line with growing organic food appeal to consumers as a healthy and ethical choice Beyond ethics organic fertilizers are gaining significant traction on account of numerous environmental benefits such as enhanced soil structure and water conservation Growing awareness among farmers about the nutritional benefits of plant based and animal based fertilizers and their role in promoting growth of earthworm and other microbiological activities vital for plant growth are fuelling adoption of organic fertilizers Animal based organic fertilizers are garnering significant traction over plant based variants owing to their good aeration and water retention capabilities that enhance the soil fertility As consumers today are inclined towards clean labels and seeking transparency in everything they consume organic has emerged as a promising approach to address these concerns In light of these beneficial aspects of organic approaches and after gauging the futuristic opportunistic value of organic fertilizers Increasing health issues such as diabetes obesity and digestive disorders are also one of the factors driving the growth of the organic food The increased accessibility of organic food and beverages in retail outlets make it more convenient for consumers to purchase these products Asia Pacific is also expected to rapidly increase in CAGR owing to the changing lifestyles and increase in consumer disposable income Organic food products and shifting consumer preference towards organic food are among the major factors expected to boost demand for organic food products in India Growing awareness among the consumers regarding the benefits of organic fertilizers over chemical fertilizers and increasing awareness among farmers and cultivators towards eco friendly fertilizers The escalating demand for organic food products is likely to create a dire need for large scale development of organic fertilizers in the forthcoming years which in turn will create a wide field of opportunities for stakeholders Sensing the growing demand for organic fertilizers market goliaths have shifted their focus on expanding their organic fertilizer produce to capitalize on the growing unmet demand from consumers The book cover various aspects related to different organic farming and production of organic compost with their agriculture process and also provides contact details of machinery suppliers with equipment photographs and plant layout A total guide to manufacturing and entrepreneurial success in one of today s organic farming and compost industry This book is one stop guide to one of the fastest growing sectors of the organic farming and compost industry where opportunities abound for manufacturers retailers and entrepreneurs This is the only complete handbook on the commercial production of organic farming and compost It serves up a feast of how to information from concept to purchasing equipment
