*Critical Psychology Praxis* Robert Beshara, 2021-02-25  
This collection of chapters advances critical psychology by incorporating praxis theory and practice and decolonial streams of thought They are united around a theme of psychosocial non alignment to modernity coloniality Bringing together a transdisciplinary range of authors from around the world this edited volume weaves together a spectrum of complex arguments and perspectives to lay the foundations for bridging the Global North South divide in critical psychology through solidarity and dialogue The book s central argument is to emphasize praxis and transdisciplinarity over disciplinary fundamentalism Psychology is only a starting point and not the end goal of critique in this book incidentally some of the authors are not even psychologists Instead the book draws on decolonial theoretical resources such as Chican Studies Black Male Studies and Critical Pedagogy to complement traditional theoretical resources like psychoanalysis Marxism poststructuralism and feminism This groundbreaking text is suitable for scholars and upper level undergraduate and postgraduate students studying critical discourse the psychology and philosophy of post coloniality conceptual and historical issues in psychology as well as anthropology and sociology courses engaging with action research

**International Relations Theories** Peter Lawler, 2024 A comprehensive and accessible introduction to international relations theories with a unique emphasis on positioning IR theories within their social political and historical contexts to help students fully understand IR theories and their influence A comprehensive first introduction to international relations theories which encourages students to fully understand the purpose and function of IR theory Readers are introduced to each IR theory and asked to consider the social political and historical context within which the theory emerged Pedagogical features such as Think Critically and Twisting the lens provide the tools students need to apply IR theory to global issues A comprehensive introduction to mainstream IR theories and critical approaches to IR explained within the social political and historical context to demonstrate that theory does not emerge from a vacuum An expert authorial voice guides students through the required material in a gentle reassuring pace with an accessible and concise style without shying away from the more

complex theories and concepts A clear and consistent structure and pedagogical framework of key terms key concepts key events and key thinkers to enable students with little or no knowledge of theory to develop a strong theoretical understanding supported by easy to navigate points of reference Critical reflection on new theoretical knowledge is encouraged by Think Critically questions that are supported by hints and tips to guide avenues of thought Opportunities to apply theory to today s events and issues and to practise using theory to analyse and interpret important societal concerns Available as an e book enhanced with self assessment activities and multi media content to offer a fully immersive experience and extra learning support

**Transforming Information Literacy Instruction** Amy R. Hofer, Silvia Lin Hanick, Lori Townsend, 2018-11-16 Provides information literacy practitioners with a thorough exploration of how threshold concepts can be applied to information literacy identifying important elements and connections between each concept and relating theory to practical methods that can transform how librarians teach A model that emerged from the Enhancing Teaching Learning Environments project in Great Britain threshold concepts are those transformative core ideas and processes in a given discipline that define the ways of thinking and practicing shared by experts Once a learner grasps a threshold concept new pathways to understanding and learning are opened up The authors of this book provide readers with both a substantial introduction to and a working knowledge of this emerging theory and then describe how it can be adapted for local information literacy instruction contexts Five threshold concepts are presented and covered in depth within the context of how they relate and connect to each other The chapters offer an in depth explanation of the threshold concepts model and identify how it relates to various disciplines and our own discipline information science and to the understandings we want our students to acquire This text will benefit readers in these primary audiences academic librarians involved with information literacy efforts at their institutions faculty teaching in higher education upper level college administrators involved in academic accreditation and high school librarians working with college bound students

[The Meaning of Travel](#) Emily Thomas, 2020-02-27 This is the finest kind of travel not just across continents but through time space and our infinite minds The journey is the joy and Emily Thomas a terrific guide Mike Parker How can we think more deeply about travel This was the question that inspired Emily Thomas journey into the philosophy of travel Part philosophical ramble part travelogue The Meaning of Travel begins in the Age of Discovery when philosophers first started taking travel seriously It meanders forward to consider Montaigne on otherness John Locke on cannibals and Henry Thoreau on wilderness On our travels with Thomas we discover the dark side of maps how the philosophy of space fuelled mountain tourism and why you should wash underwear in woodland cabins We also confront profound issues such as the ethics of doom tourism travel to doomed glaciers and coral reefs and the effect of space travel on human significance in a leviathan universe The first ever history of the places where history and philosophy meet this book will reshape your understanding of travel

**Democratic Consolidation and Constitutional Endurance in Asia and Africa** Tom Gerald Daly, Dinesha Samararatne, 2024-01-23

What factors drive constitutional change and sustain positive transformation How are democratic values recognised restored and preserved through constitutional change Democratic Consolidation and Constitutional Endurance in Asia and Africa is a well articulated response to the growing scholarly conversation on democratic backsliding and resilience Bringing together leading and emerging voices in constitutional law this groundbreaking new collection considers recent democratising events in Ethiopia The Gambia Malaysia Maldives Myanmar Sri Lanka and Thailand Across seven thematic chapters and seven case studies the volume provides analytical insight into central topics arising from these events including the role of political parties which depart from Western frameworks the often marginalised place of courts the centrality of civil military relations the explanatory power of constitutional culture and the impact of the COVID 19 pandemic Offering a decolonising approach to constitutional law and democratisation studies this book will be of keen interest to scholars practitioners and policymakers alike It is essential reading for anyone seeking to understand the relationship between democratic decay and institutional endurance and how such a relationship plays out in conditions of ongoing constitutional development

**Architecture in Digital Culture** Socrates Yiannoudes,2022-12-14 This book examines the manifestations of architecture cities and design processes within digital culture Adopting a comparative and critical method the author looks at past and present encounters of the digital with architectural discourse and practice Along three central themes machines networks and computation the book begins by discussing transformations of the analogy between architecture and the machine since the early twentieth century foregrounding questions about the relations between architecture humans machines and the environment It moves on to the city to observe how big data and smart city sustainable management systems have transformed historical visions of global networked cities Lastly it explores computational design thinking historically and in the context of complex systems as well as the latest technical social and economic developments Exposing possible drawbacks while still focusing on what is radically innovative this book proposes a way toward more liberating digital and sustainable futures for architecture An important read for architecture students academics and professionals this book connects instances of digital architecture practice and discourse throughout the history of the digital culture paradigm and their ties with sociopolitical developments It shares the possibility that these connecting lines may be the canvas for a novel architectural history of the recent past

**Radical Humanism** Robert K. Beshara,2025-12-19 Radical Humanism uses concepts from Marxism anarchism critical theory psychoanalysis and African Asian and Latin American philosophies to critique bourgeois liberal and Eurocentric humanism s from the perspectives of Indigenous studies Black studies and postcolonial decolonial studies The book problematizes and expands the Euromodern conception of the human to document and develop critical epistemologies ontologies and methodologies that honor the complexities of humans around the world It takes a particular focus on those who have historically been excluded from the category of human including Indigenous Black and Global Southern humans Contributors critically engage with humanism from a pluriversal perspective honoring non European ways of knowing and

being while providing a dialogue between multiple voices and viewpoints The book will be of interest to scholars and advanced students interested in decolonizing perspectives in psychology the humanities and social sciences
