and Sexuality in the University Classroom Michael Murphy, Elizabeth Ribarsky, 2013-04-26 Activities for Teaching Gender and Sexuality in the University Classroom is the first interdisciplinary collection of activities devoted entirely to teaching about gender and sexuality. It offers both new and seasoned instructors a range of exciting exercises that can be immediately adapted for their own classes at various levels and across a range of disciplines. Activities are self-contained, classroom-tested, and edited for ease of use and potential to remain current. Each activity is thoroughly described with a comprehensive rationale that allows even those unfamiliar with the material concepts to quickly understand and access the material learning objectives, required time and materials, directions for facilitation, debriefing questions, cautionary advice, and other applications. For the reader's benefit, each activity is briefly summarized in the table of contents and organized according to themes common to most social science classrooms: Work, Media, Sexuality, Body, etc. Many activities also include handouts that can be photocopied and used immediately in the classroom. Activities for Teaching Gender and Sexuality in the University Classroom will be the standard desk reference on this topic for years to come and will be indispensable to those who regularly teach on these topics.

Ivy, 2009 The authors have anchored their book around five key principles of communication: be aware of your communication with yourself and others; effectively use and interpret verbal messages; effectively use and interpret nonverbal messages; listen and respond thoughtfully to others; appropriately adapt messages to others.

The Global Woman's Impact on E-Commerce Chizoma C. Nosiri, 2019-04-24 Imagine the irritations of getting unsatisfying service with Western corporations whose products are sold strictly online. Perhaps it was another Amazon.com order that was never delivered to a residence in New Delhi, India, an uncertain TransUnion error made on the credit of an individual in Hong Kong, or a lack of action by Citibank to refund a Nigerian customer's account. Receiving incompetent management feedback or the corporate's reluctance to resolve minor customers' issues are unlimited in the United States and even greatly unconstrained in the global environment. These consumer conflicts elevated to the global environment become massive and are destructive to the global consumer domain structure of the Global Female consumer: her online engagement behavior and confidence and online companies branding on a global level. Such Non-Western consumer and corporate conflict interactions can create a catastrophe of cultural wars and clashes. This book discusses the cross-cultural study which determines if Western corporations' computer-mediated communication complaint of a select group of global female consumers who were born, raised, and live in China, Nigeria, and India is affected by their self-confidence, cultural norms, or language barriers. The book follows a scholarly study which determined the factors that make Western corporations' online tools unfavorable to the select group of global females when it comes to expressing their concerns, as opposed to complaining and addressing conflict issues with the local native businesses in their country. In addition, the study explored the difference in her confidence level and behavior during a complaint using corporate computer-mediated communication tools contrasted with social media platforms, i.e., Facebook or Twitter. This book

show cases the global female consumer s experience to explore whether she is welcomed treated as a family member friend guest visitor or stranger during her online shopping Since her perspective and complaint is an important component to Western corporations global success this book illustrates how her voice and money matters Organizational Behavior and Management in Health and Medicine James K.
