

E-Learning Implementation Plan

5 crucial steps to implement the e-Learning technology

Implementing an e-Learning technology in your education infrastructure is a major step. More and more we need to find ways to make the classroom accessible to everyone. The need for online platforms is growing every month. Here's a nifty step-by-step process to implement e-Learning at your institute!

Step 1: Define Your Objectives

- Pure web-based teaching or blended learning
- How to boost recall and retention
- Does your tech infrastructure support it?
- Do your faculty and students show active support?

Step 2: Understand Your Scope

- Automate your assessment
- Old and new tools
- Educational units: Entire courses, seminars, particular lessons
- Online-exams or offline exams

Step 3: Choose the Right Software

- Select the right software to help you share your online courses
- Do you understand the steep learning curve/challenges?
- Will you require mobile support for smartphones and tablets users?

Step 4: Quality Assurance

- Are you able to convey your ideas concisely and clearly?
- Is there any misleading jargon?
- Do the lessons work well on all required devices?
- Does the technology support heavy multimedia content?

Step 5: Marketing Initiatives

- How will learners benefit from it?
- Will you send out newsletters or personal invitations?
- Do you place ads/announcements in front of your target audience?
- Do you stay in contact with your 'alumni' and are responsive to their queries?

Follow this process to implement the e-Learning technology at your institution!

The ASTD E-learning Handbook Allison Rossett,2002 The entire training industry is undergoing dramatic change as training is moved out of traditional classrooms and onto the Web Training publications and conferences are now dominated by speakers writers and vendors talking about e Learning The e Learning revolution is forcing companies to spend millions on new technology and new web based courseware threatening the role of traditional classroom trainers and saving companies millions of dollars in housing

and travel costs because trainees no longer need a plane ticket and 3 nights accommodation to attend a corporate training program the training can be delivered to each learner s desktop over the Web But because e Learning is still in the revolution stage there are no clear standards and models for how to create and deliver e Learning successfully Everyone is asking the same questions how does web based training fit in with traditional classroom based training What are the standards for designing high quality e Learning How much interaction with an instructor do e Learning participants need What is the role of the instructional designer in online learning The ASTD e Learning Yearbook will be the first annual refe **College and University** ,2002
