**Methods in General Cardiovascular Medicine** Silvia Marchiano, Coen van Solingen, Serafino Fazio, Jin Li, Qingchun Zheng, 2023-09-29 This Research Topic is part of the Methods in Cardiovascular Medicine series Please submit your article to the Research Topic that best suits the focus of your research Introduction and general guidelines This series aims to highlight the latest experimental techniques and methods used to investigate fundamental questions in general cardiovascular medicine that are not covered by our current specific sections Review articles or opinions on methodologies or applications including the advantages and limitations of each are welcome This Topic includes technologies and up to date methods which help advance science [The Diabetes Textbook](#) Joel Rodriguez-Saldana, 2019-06-27 Diabetes has become a worldwide health problem the global estimated prevalence approaches ten percent and the burden of this disease in terms of morbidity and mortality is unprecedented The advances acquired through the knowledge of the mechanisms of the disease and the variety of therapeutic approaches contrast with the inability of private and public health systems in underdeveloped and even developed countries to achieve the goals of treatment This paradox has been described in many sources the surge of scientific advances contrast with an unprecedented amount of human suffering Thus a patient centered and an evidence based approach with the capacity to produce measurable clinical and economic outcomes is required The purpose of this textbook is multiple to offer a comprehensive resource covering all aspects of outpatient management to address diabetes as a health problem from an epidemiological economic and clinical perspective to discuss the role of social determinants of health on the worldwide increase in diabetes to highlight the challenges and obstacles in providing adequate care and to outline a multidisciplinary approach to management in which medical visits retain their importance as part of a team comprising the patient his or her family and a multidisciplinary group of health professionals who are able to move beyond the traditional approach of diabetes as a disease and greatly improve outcomes [Reviews and Applications of Implementation Research in Aging and Public Health](#) Marcia G. Ory, Matthew Lee Smith, Shinduk Lee, 2026-03-17 As the global population continues to age it is crucial to explore the intersection between aging and public health to ensure the well being of older adults Implementation research plays a vital role in translating evidence based interventions into real world settings and addressing the unique challenges faced by aging populations To support knowledge exchange and foster evidence based practices we are pleased to announce the research topic titled Reviews in Implementation Research in Aging and Public Health We aim to encourage review articles that delve into the field of implementation research exploring strategies to improve the delivery and effectiveness of interventions for aging populations Additionally we will consider single study articles that apply implementation science principles conceptualize implementation research issues and or report implementation research issues Goals of the research topic 1 Comprehensive Analysis The primary goal is to provide a comprehensive analysis of implementation research in the context of aging and public health Articles will critically examine

existing literature synthesizing findings from studies that focus on the implementation of interventions targeting older adults By consolidating knowledge this research topic aims to enhance our understanding of effective implementation strategies to improve health outcomes for aging populations

- 2 Evaluating Interventions We seek to evaluate the implementation of diverse interventions that promote the health and well being of older adults Articles can explore interventions targeting various aspects of aging including physical health mental health social connectedness preventive care and age friendly environments The aim is to identify successful implementation strategies and highlight opportunities for further research and improvement
- 3 Identifying Barriers and Facilitators We aim to identify the barriers and facilitators to the successful implementation of interventions in aging populations Articles can explore factors such as organizational structures policy environments resource allocation stakeholder engagement and the role of technology By understanding these factors researchers can inform the development of implementation strategies that promote the uptake of evidence based practices
- 4 Disseminating Best Practices This research topic seeks to disseminate best practices in implementation research for public health interventions targeting older adults Articles can highlight successful implementation models frameworks and methodologies that have been used in real world settings By sharing these best practices we aim to guide researchers practitioners and policymakers in facilitating the integration of evidence based practices into routine care and community based programs
- 5 Enhancing Equity and Inclusion An important goal is to address disparities and promote equity in the implementation of interventions for aging populations Articles can explore how implementation strategies can be tailored to meet the specific needs of diverse older adult populations including those marginalized due to socioeconomic status race ethnicity or geographic location among other factors The aim is to ensure that evidence based practices reach all older adults promoting equitable access to high quality care and services

Potential Themes Implementation research in chronic disease management for older adults Interventions promoting active aging and healthy lifestyles Implementation of mental health interventions for older adults Age friendly communities and their impact on health and well being Utilizing technology in the implementation of interventions for older adults Implementation research in long term care settings Addressing health disparities among aging populations through implementation strategies
