The Atrocity Exhibition Nothuman:

Photographing the Holocaust Janina Struk,2020-09-03 Atrocities committed by the Nazis during the Holocaust were photographed more intensely than any before. In the time since the images were taken they have been subjected to a perplexing variety of treatments variously ignored, suppressed, distorted, and above all exploited for propaganda purposes. With the use of many photographs including some never before seen, this book traces the history of this process and asks whether the images can be true representations of the events they were depicting. Yet their provenance, Janina Struk argues, has been less important than the uses to which a wide range of political interests has put them, from the desperate attempts of the war-time underground to provide hard evidence of the death camps to the memorial museums of Europe, the US, and Israel today. May Flowers L. M. Budgen,1855 The Open Shop ,1904 Writing the History of Slavery David Stefan Doddington, Enrico Dal Lago,2022-01-13 Exploring the major historiographical, theoretical, and methodological approaches that have shaped studies on slavery, this addition to the Writing History series highlights the varied ways that historians have approached the fluid and complex systems of human bondage, domination, and exploitation that have developed in societies across the world. The first part examines more recent attempts to place slavery in a global context, touching on contexts such as religion, empire, and capitalism. In its second part, the book looks closely at the key themes and methods that emerge as historians reckon with the dynamics of historical slavery. These range from politics, economics, and quantitative analyses to race and gender to psychohistory. History from below and many more. Throughout, examples of slavery and its impact are considered across time and place in Ancient Greece and Rome, Medieval Europe, colonial Asia, Africa, and the Americas, and trades throughout the Atlantic and Indian Oceans. Also taken into account are thinkers from Antiquity to the 20th century and the impact their ideas have had on the subject and the debates that follow. This book is essential reading for students and scholars at all levels who are interested in not only the history of slavery but in how that history has come to be written and how its debates have been framed across civilizations.
