

MULTIPLE CHOICE

1. A patient is experiencing dehydration. While planning care, the nurse considers that the majority of the patient's total water volume exists in with compartment?
 - a. Intracellular
 - b. Extracellular
 - c. Intravascular
 - d. Transcellular

ANS: A
Intracellular (inside the cells) fluid accounts for approximately two-thirds of total body water. Extracellular (outside the cells) is approximately one-third of the total body water. Intravascular fluid (liquid portion of the blood) and transcellular fluid are two major divisions of the extracellular compartment.

DIF: Understand (comprehension)

OBJ: Describe the processes involved in regulating extracellular fluid volume, body fluid osmolality, and fluid distribution.

TOP: Planning **MSC:** Physiological Adaptation

2. The nurse is teaching about the process of passively moving water from an area of lower particle concentration to an area of higher particle concentration. Which process is the nurse describing?
 - a. Osmosis
 - b. Filtration
 - c. Diffusion
 - d. Active transport

ANS: A

The process of moving water from an area of low particle concentration to an area of higher particle concentration is known as osmosis. Filtration is mediated by fluid pressure from an area of higher pressure to an area of lower pressure. Diffusion is passive movement of electrolytes or other particles down the concentration gradient (from areas of higher concentration to areas of lower concentration). Active transport requires energy in the form of adenosine triphosphate (ATP) to move electrolytes across cell membranes against the concentration gradient (from areas of lower concentration to areas of higher concentration).

DIF: Understand (comprehension)

OBJ: Describe the processes involved in regulating extracellular fluid volume, body fluid osmolality, and fluid distribution.

TOP: Teaching/Learning

MSC: Physiological Adaptation

3. The nurse observes edema in a patient who is experiencing venous congestion as a result of right heart failure. Which type of pressure facilitated the formation of the patient's edema?
 - a. Osmotic
 - b. Oncotic
 - c. Hydrostatic
 - d. Concentration

ANS: C

Venous congestion increases capillary hydrostatic pressure. Increased hydrostatic pressure causes edema by causing increased movement of fluid into the interstitial area. Osmotic and oncotic pressures involve the concentrations of solutes and can contribute to edema in other situations, such as inflammation or malnutrition. Concentration pressure is not a nursing term.

DIF: Understand (comprehension)

OBJ: Describe common fluid, electrolyte, and acid-base imbalances.

TOP: Assessment **MSC:** Physiological Adaptation

4. The nurse administers an intravenous (IV) hypertonic solution to a patient expects the fluid shift to occur in what direction?
 - a. From intracellular to extracellular
 - b. From extracellular to intracellular
 - c. From intravascular to intracellular
 - d. From intravascular to interstitial

ANS: A

Hypertonic solutions will move fluid from the intracellular to the extracellular (intravascular). A hypertonic solution has a concentration greater than normal body fluids, so water will shift out of cells because of the osmotic pull of the extra particles. Movement of water from the extracellular (intravascular) into cells (intracellular) occurs when hypotonic fluids are administered. Distribution of fluid between intravascular and interstitial spaces occurs by filtration, the net sum of hydrostatic and osmotic pressures.

DIF: Understand (comprehension)

OBJ: Describe the processes involved in regulating extracellular fluid volume, body fluid osmolality, and fluid distribution.

TOP: Planning

MSC: Pharmacological and Parenteral Therapies

Chapter 42 Potter And Perry

D Keegan

Chapter 42 Potter And Perry:

This is likewise one of the factors by obtaining the soft documents of this **Chapter 42 Potter And Perry** by online. You might not require more become old to spend to go to the ebook introduction as without difficulty as search for them. In some cases, you likewise pull off not discover the statement Chapter 42 Potter And Perry that you are looking for. It will utterly squander the time.

However below, once you visit this web page, it will be therefore utterly simple to acquire as skillfully as download guide Chapter 42 Potter And Perry

It will not acknowledge many time as we accustom before. You can reach it while act out something else at home and even in your workplace. fittingly easy! So, are you question? Just exercise just what we give below as skillfully as review **Chapter 42 Potter And Perry** what you gone to read!
