Congress. Senate. Committee on the Judiciary, 2010 New Developments in Immigration Enforcement and Compliance, 2010 New Developments in Immigration Enforcement and Compliance provides an authoritative insiders perspective on the latest immigration laws trends and strategies that both clients and counsel need to know Featuring partners from law firms across the country these experts analyze the increase in enforcement activity and discuss how to handle investigations and raids including common triggers the proper steps to follow and how to work successfully with government investigators From compliance manuals and documentation review to self audits and E Verify these top lawyers update readers on the fundamental elements of a successful compliance program and the consequences of non compliance Additionally these leaders reveal methods for controlling costs assessing the future of immigration reform and evaluating how the economy is impacting the employment of foreign workers The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today as these experienced lawyers offer up their thoughts around the keys to success within this ever evolving field *Re-thinking the Political Economy of Immigration Control* Lea Sitkin, 2019-10-08 This book offers a systematic exploration of the changing politics around immigration and the impact of resultant policy regimes on immigrant communities It does so across a uniquely wide range of policy areas immigration admissions citizenship internal immigration controls labour market regulation the welfare state and the criminal justice system Challenging the current state of theoretical literature on the criminalisation or marginalisation of immigrants this book examines the ways in which immigrants are treated differently in different national contexts as well as the institutional factors driving this variation To this end it offers data on overall trends across 20 high income countries as well as more detailed case studies on the UK Australia the USA Germany Italy and Sweden At the same time it charts an emerging common regime of exploitation which threatens the depiction of some countries as more inclusionary than others The politicisation of immigration has intensified the challenge for policy makers who today must respond to populist calls for restrictive immigration policy whilst simultaneously heeding business groups

calls for cheap labour and respecting legal obligations that require more liberal and welcoming policy regimes The resultant policy regimes often have counterproductive effects in many cases marginalising immigrant communities and contributing to the growth of underground and criminal economies Finally developments on the horizon driven by technological progress threaten to intensify distributional challenges While these will make the politics around immigration even more fraught in coming decades the real issue is not immigration but the loss of good jobs which will have serious implications across all Western countries This book will appeal to scholars and students of criminology social policy political economy political sociology the sociology of immigration and race and migration studies
