Rethinking Copyright for Sustainable Human Development Sileshi Bedasie Hirko, 2021-11-25 This book explores the interface between copyright and higher education and their complementarities for the advancement of sustainable human development In its broader sense the concept of human development is noted as a set of freedoms and human capabilities that are essential for human flourishing Adopting a rights based human development and capability approach HDCA this book primarily examines the relevant policy and legal flexibilities under the existing international copyright system and their implications for access to knowledge required for creative innovation and higher education Exploring the interfaces between copyright and higher education this book argues that an unbalanced and restrictive copyright system impedes reasonable access to knowledge and stifles creative and learning freedoms or capabilities In effect a restrictive copyright system results in serious ramifications for sustainable human development In view of its findings this book underscores the need for rethinking copyright and reframing its relevant flexibilities as users rights that are vital for promoting creative and learning capabilities towards sustainable human development Further the book emphasizes the complementarities between copyright and higher education and their joint roles for sustainable human development Given its application of the HDCA to explore ranges of interlinked topics this book will be of a great interest to researchers across the fields of intellectual property law innovation global development human rights and higher education *Islamic Economics,*

Growth and Development Mustafa Metin Başbay, 2025-09-01 The study of economic development is inherently grounded in philosophical and ethical assumptions. In other words, to discuss economic development either at a conceptual level or as a real process necessitates an ethical and philosophical basis. The authors of this book believe that Islamic economics can serve as such a basis, one that emanates from Islamic principles and values. This book presents a distinctive ethical and philosophical framework, one that is grounded in Islamic principles and the established literature of Islamic economics and finance, to analyse and interpret the concept of economic development as well as to propose policy solutions to real world development problems and challenges. The book contains theoretical and empirical studies which connect the literature of Islamic economics with economic development. While some chapters discuss development at the conceptual philosophical level, others examine the real world issues faced by developing countries. It proposes institutional constructs as well as concrete public policies to face developmental challenges such as fighting poverty and inequality, environmental and social sustainability, industrialisation and industrial policy, and social services and human capital. Serving as both an introduction and a comprehensive resource, this book illustrates how the concepts and problems of economic development can be examined from an Islamic economics perspective and as such will equip researchers and students with a basic understanding of how Islamic economics interacts with the issues of economic development.

International Social Work David Cox, Manohar Pawar, 2012-12-04 *International Social Work: Issues, Strategies and Programs*, Second Edition, draws together the practice wisdom emerging within the broad scope of international social work practice and its role in contributing to the international community's efforts in combating the major global social problems of poverty, conflict, and postconflict reconstruction; the development of countries and disadvantaged populations; migration and displacement; and the needs of specific populations such as child soldiers and AIDS orphans. Utilizing an integrated perspectives approach incorporating global human rights, ecological, and social development perspectives, the *International Social Work 2e* is designed to prepare social workers, human services professionals, development practitioners who desire to play significant roles in responding to modern global challenges that are critical to the well-being of people, communities, nations, and ultimately of us all.

Development Management Justice Nyigmah Bawole, Farhad Hossain, Asad K. Ghalib, Christopher J. Rees, Aminu Mamman, 2016-10-04 Despite significant financial investments, the rate of development and pace of poverty reduction in developing and transitional countries has not always matched expectations. Development management typically involves complex interactions between governmental and non-governmental organisations, donors, and members of the public and can be difficult to navigate. This volume brings together a group of international contributors to explore the theoretical and empirical underpinnings of development management and to consider the prospects and challenges associated with it in the context of both developing and transitional countries. Referring to dominant norms and values in public and developmental organisations, development management is tied up with the attitudes and perceptions of various stakeholders, including

government officials public sector managers aid workers donors and members of the public Attempting to make sense of complex interactions between these actors is highly problematic and calls for new approaches models and insights Based on cutting edge research the chapters challenge much of the previous discourse on the subject and evaluate the challenges and opportunities that it presents Development Management offers academics researchers and practitioners of public administration business and management international development and political science a comprehensive and state of the art review of current research on development management in the context of developing and transitional countries

Economic Development in the Middle East Rodney Wilson,2021-09-23 This new edition examines how development in the Middle East is being influenced by global economic change This comparative textbook focuses on the region s strengths and highlights development success especially in the Gulf Turkey and Israel The major structural changes in the economies of the Middle East are analysed and current employment challenges are discussed The impact of demographic changes is considered notably the dramatic decline in birth rates which will have implications for future employment The contribution of banks and capital markets to the region s development is appraised including that of Islamic financial institutions which play a prominent role in the Gulf Cooperation Council GCC countries but are on the margins of the financial systems elsewhere Historically development in the GCC was linked to oil and gas production and prices a key issue being whether these are being decoupled as economies diversify and become more self sustaining The evidence on this from the GCC is encouraging with transparent and accountable financial management and major improvements in economic governance despite the lack of democracy Examining the drivers of economic development in the Middle East in a regional and global context this fully updated textbook is a key resource for students and academics interested in economic development and the political economy of the Middle East

The Relevance of Philosophy Professor Sylvanus Nnoruka,2022-12-14 The Relevance of Philosophy By Professor Sylvanus Ifeanyichukwu Nnoruka The Relevance of Philosophy defends the assertion that philosophy is not a theoretical irrelevant enterprise Philosophy is relevant to life and this book makes use of phenomenological and hermeneutical methods to offer solutions to the social political and economic problems in Africa specifically Nigeria With regard to Nigeria many are of the opinion that the problem is simply and uniquely that of leadership Others think it is ethnicity while some opine that it is lack of authentic education method The articles in the book tackle these and other relevant problems The authors recommend this book to all Nigerians and indeed every African The authors believe it is not enough to keep bemoaning the regrettable events of the past which have crippled Africa s development Rather through critical reasoning they aim to generate unique solutions to Nigeria s problems
