Bonello, 2006. *Taking Sides: Clashing Views on Economic Issues* Twelfth Edition is a debate style reader designed to introduce students to controversies in economics. The readings which represent the arguments of leading economists and commentators reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. For each issue the editor provides a concise introduction and postscript summary. The introduction sets the stage for the debate as it is argued in the yes and no readings and the postscript briefly reviews the opposing views and suggests additional reading on the controversial issue under discussion. By requiring students to analyze opposing viewpoints and reach considered judgments *Taking Sides* actively develops students' critical thinking skills.
