*Ecotopia* Ernest Callenbach, 2009-12-16 A novel both timely and prophetic Ernest Callenbach's *Ecotopia* is a hopeful antidote to the environmental concerns of today set in an ecologically sound future society Hailed by the Los Angeles Times as the newest name after Wells Verne Huxley and Orwell Callenbach offers a visionary blueprint for the survival of our planet and our future *Ecotopia* was founded when northern California Oregon and Washington seceded from the Union to create a stable state ecosystem the perfect balance between human beings and the environment Now twenty years later this isolated mysterious nation is welcoming its first officially sanctioned American visitor New York Times Post reporter Will Weston Skeptical yet curious about this green new world Weston is determined to report his findings objectively But from the start he is alternately impressed and unsettled by the laws governing *Ecotopia*'s earth friendly agenda energy efficient mini cities to eliminate urban sprawl zero tolerance pollution control tree worship ritual war games and a woman dominated government that has instituted such peaceful revolutions as the twenty hour workweek and employee ownership of farms and businesses His old beliefs challenged his cynicism replaced by hope Weston meets a sexually forthright *Ecotopian* woman and undertakes a relationship whose intensity will lead him to a critical choice between two worlds *Ecotopia* Ernest Callenbach, 1977 In the year 1999 Wil Weston investigative reporter encounters a new way to live and a new romantic interest in a nation in charge of its own biological destiny *Ecotopia* Ernest Callenbach, 1975 *Ecotopia* was founded when northern California Oregon and Washington seceded from the Union to create a stable state ecosystem the perfect balance between human beings and the environment Now twenty years later the isolated mysterious *Ecotopia* welcomes its first officially sanctioned American visitor New York Times Post reporter Will Weston Like a modern Gulliver the skeptical Weston is by turns impressed horrified and overwhelmed by *Ecotopia*'s strange practices employee ownership of farms and businesses the twenty hour work week the fanatical elimination of pollution mini cities that defeat overcrowding devotion to trees bordering on worship a woman dominated government and bloody ritual war games Bombarded by innovative unsettling ideas set afire by a relationship with a sexually forthright *Ecotopian* woman Weston's conflict of values intensifies and leads to a startling climax **The Pursuit of Ecotopia** E. N. Anderson, 2010-01-22 The world environmental and social justice crises brought on by our high throughput global economy can be ameliorated only if we adapt the pragmatic ethics of social cohesion in traditional societies to the modern world Traditional societies have much to teach the modern world about conservation and environmental management *The Pursuit of Ecotopia Lessons from Indigenous and Traditional Societies for the Human Ecology of Our Modern World* argues that the root of our environmental crisis is that we have not devised modern ways to induce people with diverse interests to think and act cooperatively to secure shared interests We take a short term narrow view of resource management and ethical conduct instead of a long term global view of *ecotopia* a conception in which the destructive corollaries of consumerism are curbed by emotionally grounded policies and ethics of sustainability

social justice and stewardship In this controversial and brilliantly written book author E N Anderson maintains that the world can escape impending ecological disaster only by embracing a political and ethical transformation that will imbue modern societies with the same shared sense of emotional rationality practiced by traditional cultures He draws lessons from ecologically successful traditional societies and also draws cautionary tales from traditional societies that have responded maladaptively to disruption and failed ecologically as a result Ecological Concerns and Their Collective Realisation in Ernest Callenbach's "Ecotopia" Katharina Eder,2011-05 Seminar paper from the year 2010 in the subject English Language and Literature Studies Literature grade 2 University of Vienna language English abstract Ernest Callenbach s Ecotopia consists of the reports and diary entries of William Weston a reporter who is actually the first person to enter the newly modelled country consisting of Washington Oregon and Northern California which broke from the USA in 1980 Seen from 1974 the story is set 25 years in the future in the year of 1999 Ecotopian citizens are described as creative free thinking liberal and energetic people who place value on work in team configurations and social responsibility William Weston provides the reader with detailed insights into the Ecotopian lifestyle politics sexual freedom education and gender relations However the main focus of the book is on ecological aspects This essay is concerned with the ecological concerns and their collective realization in Ecotopia whereas emphasis will be put on Ecotopia s food circle food production and processing car less living television and wares Ecotopian economy their woods plastics and their way of generating energy from sun and sea

his book *Utopia* about an island paradise far away from his troubled land. It was an instant hit and the literati across Europe couldn't get enough of its blend of social fantasy with a deep desire for a better world. Five hundred years later *Ecotopia 2121* once again harnesses the power of the utopian imagination to confront our current problems among them climate change and offer a radical alternative vision for the future of our troubled planet. Depicting one hundred cities around the globe from New York to San Francisco, London, Tokyo, Sydney, Rio de Janeiro, Mexico City, Beijing, Vienna, Singapore, Cape Town, Abu Dhabi, and Mumbai, Alan Marshall imagines how each may survive and prosper. A striking full color scenario painting illustrates each city. The chapters tell how each community has found either a social or technological innovation to solve today's crises. Fifteen American cities are covered. Around the world urban planners like to tailor scenarios for the year 2020 to take advantage of the metaphor of 20/20 vision. In *Ecotopia 2121* the vision may be fuzzy but its sharp insights, captivating illustrations, and playful storytelling will keep readers coming back again and again.

Utopian Studies II  
Michael S. Cummings, Nicholas D. Smith, 1989     *The Nation*, 1982     **Many Wests** David M. Wrobel, Michael C. Steiner, 1997. What does it mean to live in the West today? Do people tend to identify with states, with regions, or with the larger West? This book examines the development of regional identity in the American West, demonstrating that it is a regionally diverse entity made up of many different wests: Great Plains, Southwest, Rocky Mountains, and more, in which American regionalism finds its fullest expression. These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them. Wrobel and Steiner first offer a compelling overview of the West's regional nature, then thirteen other rising or renowned scholars from history, American Studies, geography, and literature tell how regional consciousness formed among inhabitants of particular regions. All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities. Some focus on race and culture as the primary influences on regional consciousness, while others emphasize environmental and economic factors or the influence of literature. Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived. Each of the contributors believes that where a people live helps determine what they are, and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists. Many books speak of the West as a place, but few others deal with the West's different places. *Many Wests* presents a vision of the West that reflects both the common heritage and unique character of each major subregion, building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields. It is a book for everyone who lives in, studies, or loves the West, for it confirms that it is home to very different peoples, economies, histories, and regions.

Counterculture Green Andrew G. Kirk, 2007. For many it was more than a publication; it was a way of life. *The Whole Earth Catalog* billed itself as *Access to Tools* and it grew from a Bay Area blip to a national phenomenon catering to hippies, do it

yourselfers and anyone interested in self sufficiency independent of mainstream America now known as living off the grid In recovering the history of the Catalog s unique brand of environmentalism historian Kirk recounts how Stewart Brand and the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement human ingenuity and sustainable living Kirk shows us that Whole Earth was more than a mere counterculture fad At a time when many of these ideas were seen as heretical to a predominantly wilderness based movement it became a critical forum for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way From publisher description     **Science-fiction Studies** ,1984     The Journal of the William Morris Society ,2000     **Beyond the Earth Summit** Steve Lerner,1992     **The ABC-CLIO World History Companion to Utopian Movements** Daniel Webster Hollis,1998-09 The ABC CLIO World History Companion to Utopian Movements is a unique reference work devoted to actual and theoretical utopian movements Detailed entries examine major utopian movements significant utopian thinkers and literary works and various sects settlements and communes The more than 100 A to Z entries include Diggers Ecotopia Fairhope Colony Feminist Utopias Futurism Huguenot Utopias Kibbutzim Lunar Utopias Millennialism Native American Utopias New Age Cults Oneida Community Ranters Transcendentalism and Welfare State     **Contemporary Political Ideologies** Lyman Tower Sargent,1993     **Twentieth-century Science-fiction Writers** Curtis C.
