grassroots protests to those of professionalized social movement organizations Specifically Lunceford examines PETA and the use of chained women and the Running of the Nudes lactivists or women engaging in public breastfeeding as protest action in both online and physical space the World Naked Bike Ride s worldwide protest against oil dependency and attempt to raise awareness of the vulnerability of cyclists and a contest held on College Humor that invited women to write their preferred presidential candidate on their exposed breasts and send the picture to them to post on the site Although these actions may seem to have little in common beyond their use of body exposure they all share the notions that something can happen when you take your clothes off and that the act of disrobing can have social and political consequences Moreover these groups illustrate the often paradoxical views of the exposed body by both the participants and the observers and how such bodies operate in the public sphere Even when the voice is silent the body still speaks Naked Politics considers what is being said
