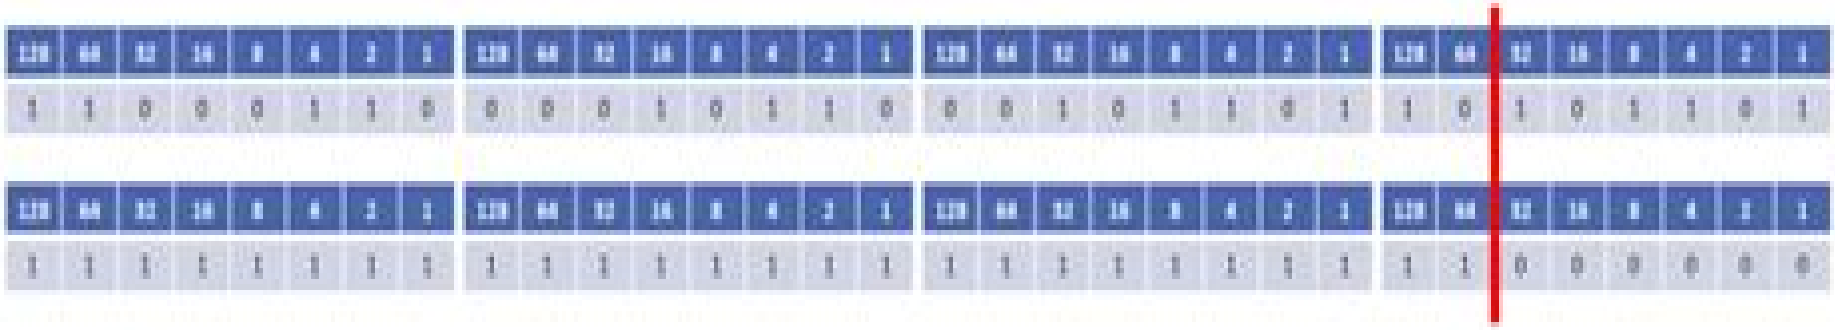
Practice Question Answer

- Next let's calculate the address range for this subnet
- Write out 198.22.45.173/26



- The network portion of the address is the first 26 bits
- 198.22.45.128 is the network address
- The line is after 64, so add 64 to get the network address of the next subnet
- The next subnet begins at 198.22.45.192
- So the broadcast address is 198.22.45.191
- And the valid host addresses are 198.22.45.129 to 198.22.45.190
