Stalingrado 1942:

Leopoldo Méndez Deborah Caplow, 2007-12-01 Monografie over leven en werk van de Mexicaanse prentkunstenaar 1902-1969 met de nadruk op de jaren dertig en veertig waarin hij politiek zeer actief was Ook de invloeden van en naar andere kunstenaars uit zijn tijd komen aan bod

The Worlds of Langston Hughes Vera M. Kutzinski, 2012-09-18 The poet Langston Hughes was a tireless world traveler and a prolific translator editor and marketer Translations of his own writings traveled even more widely than he did earning him adulation throughout Europe Asia and especially the Americas In *The Worlds of Langston Hughes* Vera Kutzinski contends that for writers who are part of the African diaspora translation is more than just a literary practice it is a fact of life and a way of thinking Focusing on Hughes's autobiographies translations of his poetry his own translations and the political lyrics that brought him to the attention of the infamous McCarthy Committee she shows that translating and being translated and often mistranslated are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored Madrid Havana Buenos Aires Mexico City and of course Harlem The result is a fresh look at Hughes not as a solitary author who wrote in a single language but as an international figure at the heart of a global intellectual and artistic formation

Nicaragua and the Politics of Utopia Daniel Chavez, 2015-12-08 The history of modern Nicaragua is populated with leaders promising a new and better day Inevitably as *Nicaragua and the Politics of Utopia* demonstrates reality casts a shadow and the community must look to the next leader As an impoverished state second only to Haiti in the Americas Nicaragua has been the scene of cyclical attempts and failures at modern development Author Daniel Chavez investigates the cultural and ideological bases of what he identifies as the three decisive movements of social reinvention in Nicaragua the regimes of the Somoza family of much of the early to mid twentieth century the governments of the Sandinista party and the present day struggle to adapt to the global market economy For each era Chavez reveals the ways Nicaraguan popular culture adapted and interpreted the new political order shaping critiquing or amplifying the regime's message of stability and prosperity for the people These tactics of interpretation otherwise known as meaning making became all important for the Nicaraguan people as they opposed the autocracy of Somocismo or complemented the Sandinistas or struggled to find their place in the Neoliberal era In every case Chavez shows the reflective nature of cultural production and its pursuit of utopian idealism

El nazismo y el tercer Reich José Benajmin, Rodríguez Iturbe,2019-04-20 La intención de estas páginas que nacieron de lecciones universitarias es contribuir a completar la visión de un tiempo oscuro lleno de serdida tragedia humana como el representado por la toma del poder por Adolf Hitler y el nacional socialismo alemán Historias detalladas sobre personas y sucesos de ese tiempo abundan pero siempre pueden darse aportes complementarios que pongan de relieve la crisis de la modernidad que los totalitarismos en este caso el nazi representan A partir de la premisa de que la academia no solo debe ocuparse del pasado trágico en sí sino procurar que su trabajo contribuya a evitar que lo antihumano tenga posibilidad de reaparecer o de que la edulcorada visión de los crímenes de ayer aporte no a su comprensión crítica sino a una indeseable y deformante justificación se hace necesario el estudio de los totalitarismos El autor ha procurado dejar se alada la madeja más turbia del origen mítico pagano plagado de ocultismo que en la Weltanschauung nacional socialista terminó en religión política que en planteamiento ideológico propiamente dicho

Hitler's War in the East, 1941-1945 Rolf-Dieter Müller,Gerd R. Ueberschär,1997 There is still a widespread assumption that the Second World War was won in the West when in fact the tide was first turned on the Eastern front This book written by two internationally known experts on the subject argues that Hitler s Ostkrieg was the central event of the global conflict between the Allies and the Axis powers However this is much more than a traditional military political history it deals with Nazi crimes and economic exploitation with the psychological war No less significantly this volume provides a guide to the extensive literature on the war in the East including largely unknown Soviet writing on the subject Indispensable for military historians but also for all scholars
