Program ASEP Coaching Principles is a part of ASEP's Bronze Level coaching certification a three step certification involving coursework essential for coaching any sport teaching sport first aid and conveying advanced sport specific knowledge

High-Performance Coaching for Managers William J. Rothwell, Behnam Bakhshandeh, 2022-07-05 Coaching is a necessary skill for managers It is important as a fundamental part of an organization's talent efforts including talent acquisition development and retention strategies For a coaching program to succeed in an organization it should be recognized as a useful approach throughout the organization and become part of the fabric of the corporate culture Performance Coaching for Managers provides an important tool for organizations to use to train their managers on coaching This book differs significantly from other books in the coaching market Many books on coaching cast coaches as facilitators who question their clients the coachees helping them to articulate their own problems formulate their own solutions develop their own action plans to solve problems and measure the success of efforts to implement those plans That is called a nondirective approach But this book adopts a directive approach by casting the coach as a manager who diagnoses the problems with worker job performance and offers specific advice on how to solve those problems While there is nothing wrong with a nondirective approach it does not always work well in job performance reviews in which the manager must inform the worker about gaps between what is needed the desired and what is performed the actual The significant difference between what is currently available in the market and what is offered in this book is the authors collective experience of over 70 combined years of hands on research and delivery experiences in the Human Resources Development field According to the Harvard Business Review 2015 workers generally expect their immediate supervisors to give them honest feedback on how well they do their jobs and specific advice on what to do if they are not performing in alignment with organizational expectations When workers do not receive advice but instead are questioned about their own views they regard their managers as either incompetent or disingenuous Effective managers should be able to offer direction to their employees After all managers are responsible for ensuring that their organizational units deliver the results needed by the organization If they fail to do that the organization does not achieve its strategic goals This book gives managers direction in how to offer directive coaching to their workers

Successful Coaching Rainer Martens, 1990

NIAAA's Guide to Interscholastic Athletic Administration National Interscholastic Athletic Administrators Association, 2013 This comprehensive resource covers leadership operations financial and facilities management and other chief administrative responsibilities to help readers better understand the athletic director's multifaceted role

[NIAAA's Guide to Interscholastic Athletic Administration](#)
National Interscholastic Athletic Administrators Association (NIAAA), 2013-07-01 NIAAA's Guide to Interscholastic Athletic

Administration presents a wealth of information and insights from experienced athletic directors across the United States. This comprehensive resource covers leadership, operations, financial and facilities management, and other chief administrative responsibilities to help readers better understand the athletic director's multifaceted role. NIAAA's Guide to Interscholastic Athletic Administration was developed under the direction of the National Interscholastic Athletic Administrators Association (NIAAA), the trusted authority for excellence in administration of high school sports. This guidebook features the best practices in high school athletic administration to assist both aspiring and practicing athletic directors in meeting the demands of the job. General guidelines and background knowledge are complemented by specific strategies and techniques. Each chapter offers examples of how to solve common problems, and sidebars highlight creative solutions employed by exemplary high school athletic directors. This text features guidance and multidisciplinary information on handling some of the toughest parts of the job. A chapter on personnel management discusses mentoring and evaluation systems to assist with the growth and development of staff, and a technology chapter offers specific recommendations of tools to help athletic directors operate more effectively and efficiently. A chapter on legal and safety concerns outlines concrete measures that administrators can take to prevent mishaps and protect their schools and staff from liability. Readers will also learn how to manage a budget and find creative alternatives to get the most out of available funds. Based on extensive research conducted by the editors, this text confronts several challenges facing contemporary high school sport administrators: providing comprehensive professional preparation for athletic director candidates and continuing education for today's athletic directors; aligning the goals of education-based athletic programs and the conduct of coaches, athletes, and parents engaged in the program to the educational mission of the school, district, state, and national governing organizations; ensuring ongoing education in vital areas including student citizenship, staff support, safety, risk management, and budget preparation; making consistent efforts to provide equitable opportunities for participation and accommodate the abilities and interests of all student athletes. The position of interscholastic athletic administrator is rapidly becoming one of the most challenging positions in any school as these professionals are asked to do more with less. Given proper education, tools, and goals, NIAAA recognizes the pivotal role an athletic administrator can have in enriching the school culture and experiences of participating athletes, parents, and coaches. NIAAA's Guide to Interscholastic Athletic Administration provides fundamental knowledge, guided by sound educational practices, to enable athletic administrators to execute their daily duties with competence and confidence.
